General Information

HISTORICAL

AS EVERY beneficent institution first exists as the ideal of some enthusiastic nature, so Monmouth College first existed as the dream stuff of two pioneer preachers, Rev. Robert Ross, pastor of the South Henderson Associate Reformed Congregation, and Rev. J. C. Porter, pastor of Cedar Creek. Their dream took tangible form on October 11, 1852, when it was brought before the Presbytery of the Associate Reformed, now the United Presbyterian Church.

In November, 1853, the institution of which they had dreamed was opened as an academy with Rev. James Brown at its head. After two years, steps were taken to raise it to the rank of a college. In January, 1856, the Board of Trustees elected a faculty consisting of Rev. David A. Wallace, President; Rev. J. R. Brown, Professor of Languages, and Rev. Marion Morrison, Professor of Mathematics. These instructors were each to receive $800.00 a year salary, but as the income of the institution did not warrant such extravagance they voluntarily proposed a reduction in their own pay to $500.00 a year. This was the spirit out of which this pioneer institution was born.

On the first Monday of September, 1856, Monmouth College was opened for the reception of students, and in February, 1857, she was granted her charter. Ninety-nine students were enrolled the first year. With each succeeding year there has been a growth in influence and efficiency.

For twenty-two years Dr. David A. Wallace continued as President of the institution and it was largely thru his influence that her foundations were laid and her type fixed. He was one of that noble school of educators that flourished in Illinois in the fifties and sixties, a school containing such names as Ninian Edwards, Jonathan

Blanchard and Newton Bateman. Dr. Wallace resigned January 1, 1878, and the Vice President, Professor J. C. Hutchinson, administered the affairs of the college during the remainder of the year.

In June, 1878, Rev. J. B. McMichael, D. D., was elected to the Presidency, and entered upon the duties of the office the following September. For nineteen years he devoted his energies to the building up of the institution. Monmouth owes much to her first two presidents. Their names have been perpetuated on the campus by the erection of two memorial buildings, Wallace Hall and McMichael Science Hall.

Dr. McMichael resigned in June, 1897. The Rev. S. R. Lyons, D. D., was elected to succeed him, February, 1898, and was formally inaugurated in June of the same year. For three years Dr. Lyons faithfully administered the affairs of the institution, resigning in June, 1901. The present President entered upon his duties June 1, 1903. The exercises connected with his inauguration were held October 27th of the same year.

A college is known by its fruits—its alumni. Monmouth College is justified of her children. Two thousand three hundred and six have graduated from her halls. They are to be found in all parts of the world and are occupying positions of usefulness and honor.

Of the eleven hundred young men, almost forty per cent have entered the ministry. The rolls show that three hundred or more are teachers. Among these are found college and university presidents, professors in universities, theological seminaries, colleges, academics, and high schools, and city, county and state superintendents. Hundreds of others of the alumni are leaders in the legal, medical and other professions or hold places of honor and influence in the business world.

This does not tell the whole story. Thousands more who have not graduated have received from Monmouth College a good education and are most efficient men and women in the communities in which they live.

CONTROL

Monmouth College is under the control of certain bodies connected with the United Presbyterian Church of North America. The College

was chartered February 16, 1857, under the control of the Synod of Illinois of the Associate Reformed Presbyterian Church of North America. On February 18, 1859, the charter was amended by substituting the word "United" for the words "Associate Reformed" in the original charter. On March 12, 1869, the charter was again amended so that the Synod of Illinois was given power to associate other bodies with itself in the maintenance and control of the college. The Synods of Iowa and Kansas were thus associated at this time.

Various changes have been made in the board of control from time to time.

The College is at present under the control of the Synods of Illinois and Nebraska, the Second Synod (Ohio and Indiana); the Presbytery of Keokuk, (Iowa); and the Alumni Association of the College.

LOCATION

Monmouth, Illinois, is a typical college town. It is a clean, thrifty, city of about 10,000 inhabitants, situated on the main line of the great "Burlington" system, 180 miles west of Chicago, and 16 miles from the Mississippi River. The St. Louis division of the Burlington also passes thru Monmouth, as does the Minneapolis & St. Louis Railroad and the Cannon Ball Motor Bus Line.

"The Maple City," as Monmouth is styled, has all the modern improvements and conveniences of larger cities, such as paved streets, electric lights, water works, etc. It is a city of churches. The moral influences surrounding the students render them as free from temptation to evil habits as they could be anywhere, outside the influence of a Christian home.

PHYSICAL PLANT

The college buildings are situated on a beautiful campus of twenty-five acres covered with various kinds of forest trees. These buildings at the present time are Auditorium, Carnegie Library, Wallace Hall, (Main recitation building), J. B. McMichael Science Hall, President's Home, Central Heating Plant, "McMichael Home," "The Terrace," "Sunnyside," and "The McQuiston," (dormitories for women,) and Gym-

nasium. Most of these buildings are new and in them Monmouth has a physical equipment such as is rarely found in colleges of her class.

WALLACE HALL—The main building and the architectural center of the group is a splendid fire proof structure, erected in 1908. It contains thirteen recitation rooms besides waiting rooms, professors' rooms, and literary society halls.

J. B. MCMICHAEL SCIENCE HALL—This is a thoroly modern and up-to-date Science Hall. It was completed in 1910 and forms an admirable "work shop" for the teaching of the natural sciences.

CARNEGIE LIBRARY BUILDING—This building was erected in 1907, and contains in addition to the reading and library rooms proper, the administration offices and the assembly room of the Christian Associations.

THE AUDITORIUM—This is "The College Chapel" which, in addition to a main audience room seating eight hundred persons, contains an assembly hall accommodating two hundred and fifty. In this building are the musical conservatory studios.

WOMEN'S DORMITORIES—A group of four dormitories furnish living quarters for some 150 young women. "McMichael Home" a fire proof structure modern in all its appointments, was completed in 1914. "The Terrace" was opened as a cottage dormitory in 1919, "Sunnyside," with all modern conveniences in 1921 and "The McQuiston" in 1926.

THE GYMNASIUM—This building was completed in 1925 at a cost of $250,000.00. It contains everything that is needed for the all round physical development of every student. The feature of the basement floor is a hundred yard cinder track. The first floor contains locker and shower rooms, handball, mat and wrestling rooms, and a swimming pool, 80 feet long by 27 feet wide. The main floor, a magnificent room 120 feet long by 80 feet wide, furnishes ideal conditions for basketball and general gymnasium work. A spacious gallery gives a seating capacity for spectators of two thousand. This room is also fitted with a stage and a motion picture booth, so that it can be used for school plays, concerts, and entertainments of various kinds.

Adjacent to the gymnasium is an athletic field of some eight

acres; with baseball diamond, football field, quarter mile track, "two twenty straightaway," jumping pits, and tennis courts.

LIBRARY AND LABORATORY FACILITIES

Monmouth students have access to two libraries, the College and the Warren County. These two libraries contain something over 70,000 volumes.

College Library

Thru the liberality of Mr. Andrew Carnegie, Monmouth College has been equipped with a beautiful and well appointed library building. Here are reading rooms and rooms for research and study. To the thirty thousand volumes now upon the shelves, new books are constantly being added.

In connection with the College Library there has been established the "John A. and Margaret J. Elliott Library of Religious Education," and also the "John Lawrence Teare Memorial Library Fund."

Warren County Library

The Warren County Library was established in 1870 as the gift of the late W. P. Pressly. It is now a Free Public Library supported by Warren County. Students of the college and faculty members have thus a right to all its privileges. At the present time it contains over forty thousand volumes. This is a carefully selected library. Professor L. E. Robinson, Professor of English in the College, is the Secretary of the Library Association. Connected with the library is a large and pleasant reading room supplied with all the leading papers, magazines and reviews, both English and American.

LABORATORIES

Chemistry—The chemistry department occupies the entire second floor of Science Hall, and has ample room and equipment for two hundred or more students. The hoods are equipped with electric fans and a large still furnishes distilled water which is piped thruout the entire building. The balance room is furnished with ten quantitative scales and others for approximate weighing. The department also possesses two automatic electric drying ovens, one Wuffle furnace for ignition work, a full Babcock milk testing outfit and U. S. standard specified

apparatus for oil testing. The numerous laboratories afford superior opportunities for students pursuing individual work in general, analytic and organic chemistry.

Biology—The department of biology occupies the entire first floor of Science Hall, providing three large laboratories, large lecture rooms, two large storage rooms, library, dark room, office with professor's laboratory, and a large vivarium in the basement. The equipment consists of modern laboratory tables supplied with gas fixtures, several aquaria, incubators, sterilizers, water baths, etc. In addition each student is provided with lenses and necessary tools and a modern compound microscope. The department has 50 new compound microscopes, 48 primary dissecting microscopes, a dissecting and a binocular miscroscope, two modern microtomes, one freezing microtome, micro-chemical reagents and a full assortment of glassware, together with a fair collection of German biologic charts, a fair collection of museum specimens which are used to illustrate lectures, and an up-to-date balopticon with several hundred microscopic slides, in fact all the necessary supplies to be found in a first class college.

The department library is fairly well supplied with standard biologic text-books together with files and separates issued by the United States Government. The library facilities are well adapted to the courses as outlined in the department and will be increased as rapidly as available funds permit.

In connection with the laboratory equipment, there is a herbarium of spermatophytes and crytograms representing about three thousand species of plants, including many type-fungi and marine algae. In the zoological collection the material represents type specimens rather than an aggregation of miscellaneous forms, together with a good representation of Indiana, Tennessee and Arkansas birds, both perched and skinned specimens, and also bird's eggs.

There is also an excellent collection of sea shells.

During the fall of 1925 a splendid collection of butterflies, the property of Mr. Albert Blonski of South River, New Jersey was acquired by the college. This includes more than five thousand specimens, many of them gorgeous foreign species.

These several collections all afford excellent facilities for taxonomic work and also serve as illustrative material in the lecture room.

Geology—The geology and mineralogy laboratory is located on the ground floor of the Science Building. It is supplied with ample equipment and an abundance of material for the study of determinative mineralogy, petrology, and historical geology. The lighting and physical setting of the room are conducive to thoro work. Adjoining this laboratory is the private laboratory and office of the professor in charge. The library of the college contains a large selection of geological literature.

Physics—The physics laboratories are located on the ground floor of the science building. A well stocked room adjoining the main laboratory supplies the lecture room on the one hand and the needs of the laboratories on the other. It is equipped with benches for the construction, repair and assembling of equipment. The main laboratory is well lighted and equipped with fixed and movable tables. It is designed for students in General Physics. In addition to this there are three small laboratories, which are planned for the studies of students undertaking special investigations. One laboratory is fully equipped with a modern X-ray installation suited to therapeutic and anatomic studies and other lines of research requiring X-ray. Another laboratory is adapted to radio experimental work, but is not limited to that work. The third of the smaller laboratories is largely a well arranged dark room for X-ray and other photographic development work. It is conveniently suited to studies in light. The steady growth of the department is encouraged by the addition from time to time of valuable apparatus for laboratory and lecture purpose.

PHYSICAL EDUCATION AND ATHLETICS

This department of the college is in charge of a Physical Director who is assisted in the various branches by assistants, special coaches and instructors.

An Athletic Board composed of two trustees, two members of the Alumni Association, two students and two members of the faculty, has general oversight and control of athletics. The Physical

Director does his work with the advice and under the direction of the Board.

Some form of physical training is required of each student. To this end adequate gymnasium, field and instructional facilities have been provided. The Norcross Gymnasium for women in McMichael Home and the college gymnasium render it possible to give indoor physical training under the best conditions, while the athletic field with its provision for every form of outdoor sport and exercise does the same with reference to the outdoor training.

Physical examinations are required at the beginning of the year in order that the type of exercise may be wisely and profitably chosen.

These examinations are made under the supervision of the medical directors: Dr. J. L. Sherrick for the young women and Dr. Ralph Graham for the young men.

SCHOLASTIC STANDING

Monmouth as a standard A college, holds membership in the North Central Association of Colleges and Secondary Schools, and the Association of American Colleges. She also holds a place as a college of the first rank on the approved list of the Association of American Universities and is given full recognition by the American Association of University Women. Her work is thus recognized and her credits pass current in all educational market places.

General Regulations

REGULATIONS OF THE SENATE

I. The Statutes of the College, Chapter II, Section 3, provide that, "No student shall be permitted to enter a later period of the course than the commencement of the first session of the senior year." The spirit of this law in the judgment of the faculty, requires at least one full year's attendance of a student on the exercises of the college in order to graduate. Under no circumstances will this rule, as thus interpreted, be relaxed, while the above statute remains unrepealed.

II. The Senate has adopted the following as an additional chapter to the College Statutes:

Section 1. All persons matriculating shall be regarded as students and on payment of the required fees shall be entitled to all the privileges of the college.

Section 2. Connection with the college is terminated by graduation or dismissal, honorable or otherwise.

Section 3. The privileges of the student shall be suspended in all cases of failure to pay the required fees and attend on instruction.

III. College Statutes Chapter II, Section 5: "Every person, before he is admitted to the privileges of the college, shall obtain from the treasurer a receipt by which it shall appear that he has complied with the ordinance of the Senate regarding fees and expenses, and if any officer admit to his recitation a student who has not paid his college bills, such officer shall be held responsible for such bills."

If any student shall be admitted after the beginning of a session and before the middle of it, he shall pay the fee accruing on the whole session. If admitted at or after the middle of the session he shall pay half thereof, unless he expects credit for the full term's work, in which case the full fee is charged.

In case of sickness or other unavoidable reason, which causes a student to withdraw for more than one-half session, a refund order covering one-third of the general fees for that session will be given in tui-

tion, not transferable, provided application is made within the session of absence. In no case will other fees be refunded.

The statutes expressly forbid the students to use intoxicating drinks as beverages, to frequent drinking, gambling or billiard saloons, or improper places of resort of any kind. The faculty judges places of amusement commonly called "balls" or "dances" to be improper places of resort for students.

RELIGIOUS MEETINGS

All the students, except those excused by the vote of the faculty, are required to attend the Worship of God in the Chapel daily. All who do not reside with their parents are expected to attend public worship in some church on the Sabbath. All students are required to attend the monthly Vesper Service which is held on the first Sabbath afternoon of each month in the College Auditorium.

ATHLETIC REGULATIONS

The athletic park and gymnasium are the property of the college and as such, by consent of the Board of Trustees, have been placed under the supervision of the Board of Athletic Control.

There shall be no match game played on the park or any ground whatsoever during recitation hours without the consent of the faculty.

There shall be no subletting of the park or gymnasium to any outside association, club, or individuals for the purpose of playing games, sharing gate receipts, or for any other purpose whatsoever except as authorized by the Board of Athletic Control and on the permission of the President of the College.

GOVERNMENT

It is the aim of the faculty to secure good order and diligence in study by force of moral and religious principles, rather than by direct exercise of authority. Those who persist in neglecting their studies, or in pursuing disorderly courses, or in exerting an evil influence, will not be permitted to remain in college.

General Expenses

FEES

General fees, including both tuition and incidentals

When fourteen to seventeen semester hours are carried the fee is $4.50 per semester hour.

When less than fourteen semester hours are carried the fee is $5.50 per semester hour.

When more than seventeen semester hours are carried the fee is $5.00 for each hour over seventeen.

Matriculation Fee (due on first taking a College subject)	$5.00
Graduation Fee payable by all Seniors in second semester bill	$5.00
Library Fee—Per semester	$2.50
Student Activities Fee, per semester	$8.75

The student activities fee has been added at the request of the students themselves. It entitles the student to admission to all regular athletic games, lecture course entertainments, intercollegiate debates, subscription to college paper, subscription to college annual, et cetera.

Deferred registration (after the registration day of each semester)	$3.00
Change in registration after first week of the first semester and the first Saturday of the second semester	$1.00
Removal of a condition to secure credit in an incomplete subject	$1.00
Laboratory Fees, per semester:	
BiologyI-VIII, XV, XVI	$5.00
Chemistry I and II	$7.50
Chemistry III, IV, V, and VI	$9.00
Chemistry VII, VIII, and X	$2.00
Chemistry XIII, and XIV	$2.50
Chemistry XVI	$3.00
Chemistry VIII a	$5.00
Geology	$5.00
Physics I and II	$5.00
Histology and Microscopic Anatomy	$5.00
Education V and VI each	.50
Dramatic Art per semester	$1.00

For additional hours an additional fee of $2.50 per credit hour will be charged.

Private Oratory:

Eighteen Lessons $20.00
Nine Lessons $12.00
Single Lessons $1.50

For students not in college a registration of $1.00 will be charged.

Deposits

A deposit is required of those students taking laboratory subjects. This deposit, after deducting the value of apparatus broken, is returned at the end of the semester. These deposits are:

In chemistry I, II, XIII, XIV and XVI $2.00
Chemistry III, IV, V and VI $4.00
In other subjects $1.00

Transcripts

Each student who has taken work in Monmouth College is entitled to two transcripts showing the record of his work, without charge. For additional transcripts a fee of $1.00 each will be charged.

Boarding and Rooming

For Young Women—McMichael Home, a splendid hall of residence for young women, is a fire-proof structure built of steel and concrete thruout. It is 45 by 163 feet, three stories in height, having basement and sub-basement under the entire building.

In addition to the regular dormitory rooms, it contains a gymnasium, hospital rooms, chafing dish room, the dean's suite, the matron's suite, reception halls, dining room, (accommodating 150 persons) kitchen, laundry, storage rooms, etc. It has hot and cold water in every room, two bath rooms on each floor, is heated by steam and lighted by electricity. Indeed it possesses everything calculated to make it a most attractive and comfortable home for eighty-five young women.

Room and board in this building range from $7.00 to $7.50 per week.

"The Terrace"—A cottage dormitory will accommodate sixteen young women. This building has all modern conveniences and furnishes a most attractive and comfortable home.

"The Sunnyside" is a new building completed January 1, 1921,

It furnishes a home for thirty-two young women. It has hot and cold water in every room, all modern conveniences, and with its two cheerful sun parlors makes a most attractive hall of residence.

"The McQuiston," a cottage dormitory, opened in September, 1926, will accommodate sixteen young women. This cottage has hot and cold water in every room, is heated by steam and lighted by electricity, and in fact is one of the most comfortable halls of residence in the dormitory group.

Application for rooms should be made as early as possible. Students already in attendance are given choice of rooms until June first. After that date rooms are assigned in the order in which applications are received. When an assignment or reservation of a room is made a deposit of $10.00 will be required from each young woman to insure its occupancy. This amount will remain on deposit as a breakage or damage fee to be returned at the close of the year, provided there has been no breakage or damage to be deducted.

Special attention is given to the physical health and well being of all young women in the dormitories.

A thoro medical examination under the supervision of Dr. J. L. Sherrick, Medical Director for young women, is given at the opening of the year, and is made the basis of the physical training required by the Physical Director.

A registered nurse is constantly in attendance to give instruction and advice in matters of health and to give care in case of sickness. Regularity of habit in eating, sleeping and exercise is insisted upon as essential to physical well being. A fee of $2.50 per semester is charged for this service.

For Young Men—Rooms including light, furnace or steam heat, with all modern conveniences may be secured for about $1.75 per week.

Board in private families, $5.50 to $6.50 per week.

Board in student clubs or restaurants, $4.50 to $5.50 per week.

A fair estimate of annual expenses would be from $375.00 to $450.00. Many students reduce this materially by taking advantage of the Bureau of Self Help as described below.

The cost of clothing, traveling, and the private incidental expenses of a student are not included. They will depend largely upon the habits

of the student. Clothing need cost but little, if any, more in college than out.

The college authorities disapprove of all unnecessary expenditures by students for any purpose whatever, and will use all their influence to discourage it.

Students are requested to notify the President before changing their places of boarding or rooming.

Bureau of Self Help

A bureau has been in operation for several years, the work of which is to assist in obtaining employment for students of the college who are in a measure dependent upon their own resources.

During the past year more than two hundred students have thus been enabled to make a part of their expenses.

Student Loan Fund

This fund is used for students who find it necessary to borrow money for the time being in order to complete their college course. Many students take advantage of this fund, repaying the loan as soon as they finish their education and obtain positions.

The Henry Strong Educational Foundation

From this fund, established under the Will of General Henry Strong of Chicago, an annual allotment of $400 is made to Monmouth College. Loan scholarships, available for the use of young men and women students under the age of twenty-five years, preferably in the upper classes may be obtained to aid them in securing a "practical, literary, scientific, mechanical or business education."

Prizes, Scholarships and Endowments

PRIZES

Among the prizes offered each year for excellence in various lines of activity the following may be mentioned:

1. *Eccritean Declamatory Prizes* offered by Eccritean Society for contest among its own members. $10.00 first prize, $5.00 second.

2. *Philadelphian Declamatory Prizes* offered by the Philadelphian Society for contest among its own members. $10.00 first prize, $5.00 second.

3. *The Waid Prizes* aggregating $100 are offered for Biographical reading. In order to cultivate a taste for the best literature and stimulate the reading habit, these prizes are offered by D. Everett Waid '87, Architect, of New York City.

4. *James-Nevin Debate.* A debate prize in the amount of $40 to be known as the James-Nevin Debate Prize has been endowed by the late Captain William James and James M. Nevin of the class of '79, attorney at law, Pittsburgh, Pa., for an annual Inter-Society team debate. Thirty dollars of this prize is given to the winning team and $10 to the best individual debater.

5. *Forensic Emblem*—This is a medal presented by the College and the Forensic League to those who have represented the college in intercollegiate debate or oratory.

6. *The Ronald Intercollegiate Contest in Sociology*—This contest carries a prize of $100 and has been established by W. R. Ronald, '98, Editor of the Mitchell Republican, Mitchell, South Dakota. It is open to the students of Dakota Wesleyan and Monmouth Colleges and calls for a paper on some assigned economic question. A prize of $50.00 is given to the team ranking the highest as between the two institutions. To the individual contestant awarded the highest rank a prize of $25.00 is given, to the second $15.00 and to the third $10.00.

7. *Chemistry Prize.* In connection with the prize offered by the American Chemical Society to the students of American colleges, a prize of $75 has been established in Monmouth to be given for the three ranking essays on the subjects suggested by the Chemical Society. This competition is open to all students.

8. *Mary Porter Phelps Prize.* This is a prize of $50 to be awarded each year to the student who, in the judgment of the faculty, has manifested superiority in three points; scholarship, thrift and economy, and development of character. Only those who have completed at least two years of work in Monmouth College are eligible for consideration in the granting of this prize.

9. *The William B. McKinley Prizes in English.* In 1925 Senator William B. McKinley, of Illinois, gave an endowment for two prizes of $50 each to encourage individual study and research in advanced work in English. The prizes are awarded to students who offer the best theses upon specially assigned subjects for the year.

10. *Sigma Tau Delta Freshman Medal.* Rho Alpha Chapter of Sigma Tau Delta offers each year a gold medal, on Commencement Day, to the Freshman presenting to the fraternity the most excellent composition in verse or prose prepared especially for this contest.

11. *Dan Everett and Eva Clark Waid Prize.* This is a prize of $100.00 offered each year by Mr. and Mrs. Waid of New York and awarded by the faculty on the basis of general all round excellence and development.

SCHOLARSHIPS

Generous friends have at different times endowed tuition scholarships for the use of young people seeking an education. Among these perpetual scholarships are:

1. *The Bigger (Sarah Holmes) Scholarship* endowed by J. Bradford Bigger of Ohio.

2. *The Bohart Scholarship* endowed by Jacob Bohart of Iowa.

3. *The Brush (George H.) Scholarship* endowed by George H. Brush of Iowa.

4. *The Elliott (Bella M.) Scholarship* endowed by Mrs. E. A. Brownlee of Pennsylvania.

5. *The Elmira Scholarship* endowed by the United Presbyterian Church of Elmira, Illinois.

The distribution of these scholarships unless otherwise arranged is in charge of a committee of the Executive Board of the college who are governed in their work by the following rules:

1. Only students showing good scholarship, high personal character, exemplary conduct and habits of economy in time and money, can be allowed the use of these scholarships.

2. Except where otherwise arranged, scholarships are awarded on the basis of $20.00 a semester.

3. All scholarships allowed to students are awarded provisionally and will be confirmed at the first of November and the first of May, only if the student meets the requirements above mentioned.

4. The users of these scholarships may be called upon to render to the college some service to be designated by the Scholarship Committee. Such service will not exceed six hours each week and, when possible, will have some educational value in itself.

5. At the end of each semester, scholarships must be reassigned upon the student's record for the previous semester.

6. A student who is conditioned in any subject will forfeit his scholarship for the next semester.

7. In assigning scholarships, preference is always given to those students who intend to finish their course in Monmouth College.

The above scholarships are all founded on the basis of $1000.00. A sixty dollar scholarship may be established on the basis of $1500.00, or an eighty dollar one on the basis of $2000.00.

SPECIAL SCHOLARSHIPS

The Margaret N. Worden Special Scholarship—This is a scholarship endowed by Mrs. Margaret N. Worden, of Roseville, Illinois, on the basis of a gift of $2000.00, and calls for $80.00 annually.

The Margaret N. Worden Special Scholarship—This is a scholarship endowed by Mrs. Margaret N. Worden, of Roseville, Illinois, on the basis of a gift of $3,500.00, and calls for $140.00 annually.

The Spring Hill Special Scholarship—This scholarship has been endowed by the United Presbyterian Congregation of Spring Hill, Indiana, on the basis of $2000.00 and calls for $80.00 annually.

The Lois Diffenbaugh Scholarship—This is a scholarship endowed by Mr. and Mrs. J. D. Diffenbaugh calling for $25.00 annually to be awarded to a violin student.

The Mabel Hinman Scholarship—This is a scholarship calling for $60.00 annually endowed in memory of Miss Mabel Hinman.

The La Verne Noyes Scholarships—By the will of Mr. La Verne Noyes of Chicago, a fund has been established providing scholarships covering full tuition in certain Illinois Institutions, for men who took part in the World War or the children of such men. Ten scholarships have been awarded to Monmouth.

ELI B. AND HARRIET B. WILLIAMS FUND

Hobart W. Williams of Chicago, in 1916, established a fund in memory of his father and mother, Eli B. and Harriet B. Williams. This fund amounts to $2,562,240, and is administered by the Illinois Merchants' Trust Company of Chicago. Monmouth College is one of the beneficiaries of this Foundation, and receives each year a fund to be used in the education of "poor and deserving young people."

This fund has permitted the establishment of a number of scholarships in addition to those above mentioned. It also enables the college to extend special help in a limited number of cases.

ENDOWED PROFESSORSHIPS

A large part of the endowment fund of the college has been given by those who desire to make perpetual certain chairs and departments of the college. These endowed professorships are:

1. The Harding Professorship of English Language and Literature, endowed by General A. C. Harding, of Illinois, in 1856.

2. The Pressly Professorship of Natural Science, endowed by W. P. Pressly of Illinois in 1866.

3. The Alumni Professorship of Philosophy, endowed by the Alumni of the College in 1881.

4. The Mathers Professorship of Social Science, endowed by Joseph Mathers, of Illinois, in 1895.

5. The Law Foundation of English Literature, endowed by James and Ellen C. Law of New York in 1899.

JOHN YOUNG BIBLE CHAIR

Thru the efforts of the United Presbyterian Board of Education, a chair of Bible has been endowed. This chair is known as the "John Young Chair of Bible," in memory of John Young of Knox County, Illinois, from whose estate came the largest contribution to the fund.

THE JOHN A. AND MARGARET J. ELLIOTT LIBRARY OF RELIGIOUS EDUCATION

A special fund has been set apart thru the generosity of Mr. and Mrs. John A. Elliott, of College Corner, Ohio, for the maintenance and enlargement of a library in connection with the Department of Biblical Literature.

THE JOHN LAWRENCE TEARE MEMORIAL LIBRARY FUND

This fund, of two thousand dollars, has been presented by John K. and Grace C. Teare, of Monmouth, Illinois, in memory of their son, John Lawrence Teare, '16, who died in the U. S. Naval Service on September 11th, 1918, at Bumkin Island, Boston Harbor. The income is to be used for the purchase of books related to the social sciences.

KILLOUGH LECTURE FUND

Hon. W. W. Stetson of Auburn, Maine, a few years ago, by the gift of $5,000, endowed a lectureship to be known as the "Killough Lecture Fund." This provides for bringing before the students of Monmouth College from time to time the most prominent men of the country.

> "The real object of education is to give youth resources that will endure as long as life endures, habits that time will ameliorate, not destroy; occupation that will render sickness tolerable, solitude pleasant, age venerable, life more dignified and useful and death less terrible."—*Sidney Smith.*

> "Education is a better safeguard of liberty than a standing army. If we retrench the wages of the schoolmaster, we must raise those of the recruiting sergeant." *Edward Everett.*

College and Student Organizations

CHRISTIAN ORGANIZATIONS

The Y. W. C. A. and Y. M. C. A. organizations are potent factors for good in the college life. These each hold a weekly meeting for prayer and praise. They also support the Monday evening college prayer meeting.

The life of the College centers in its religious work. Delegates are sent to all state conventions of Christian workers, that our students may have the latest and best thot and methods of Christian work. Frequent visits from state and national workers keep us in touch with the religious world. The faculty regard it an important part of their work to labor for the moral and spiritual welfare of the students.

An important work of the Christian Associations is to make it pleasant for new students on coming to college. Committees meet all trains on the opening days of the college, help students secure boarding and lodging, introduce them to other students, assist them in making their entrance to college classes and in many other ways brighten the path of the new student who is among strangers.

The Associations have been provided with a commodious, well-furnished room in the library building.

A public reception for new students is given by the Associations during the first week of the college year.

The President of the Y. W. C. A. during the past year was Miss Doris Dixon of Stronghurst, Illinois; of the Y. M. C. A. Howard McClintock of New Wilmington, Pa.

The President of the Y. W. C. A. for the coming year is Miss Nell Modder of Kensha, Wis., of the Y. M. C. A. Jacob J. Vellenga, Bellefontaine, Ohio.

LITERARY SOCIETIES

There are three literary societies connected with the college, the Eccritean and Philadelphian for men, and the Tau Sigma Alpha for women. The work done in the societies is rightly regarded a very important part of the college training. Membership in any of these societies is gained by the election of the society.

The Tau Sigma Alpha society meets at 4 p. m. on Tuesday of each week, and the men's societies on Thursday evening.

The society halls on the third floor of Wallace Hall are splendidly furnished and equipped and are a matter of pride to students and faculty.

PHILO-ECCRITEAN CONTEST

Philo-Eccritean Contest is one of the historic contests of the institution, having been inaugurated in the year 1857. It is held at present toward the close of the second semester and embraces ten points: Declamation 1, Essay 2, Oration 3, Debate 4.

LECTURE-ARTIST COURSE

A Lecture and Artist Course is maintained which enables the students to hear the best talent the country affords. This course is under the management of a student and faculty committee.

STUDENT ASSOCIATION

This is an organization of the student body for the purpose of directing and caring for such student activities and regulating such matters of student conduct as fall within its province. Its officers are President, Vice President, Secretary and Treasurer. The President during the past year was Richard P. Petrie of New Windsor, Illinois.

The Student Council thru which the organization functions consists of the following members: The President of the Student Association, the several class presidents, one representative from each class, student representatives of the Athletic Board, Editor of the Oracle, President of the Forensic Board, and Dormitory House President.

SIGMA OMICRON MU

This is a permanent organization developed from the earlier Lib-

eral Arts Club, whose members are chosen from those who rank highest in scholarship. Its purpose is to recognize and foster intellectual achievement. Only juniors and seniors who have earned a certain number of honor points, dependent on the number of courses taken, and have consistently maintained this high standard, are eligible for membership. These requirements are more rigid than those for membership in Phi Beta Kappa.

TAU KAPPA ALPHA

A chapter of this honorary national society has been in existence in Monmouth for several years. Its membership is limited to those who have represented the college in intercollegiate oratorical or debate contests. The gold key, the emblem of membership, is awarded by the college each year to those who have become eligible.

PI KAPPA DELTA

A chapter of Pi Kappa Delta, honorary national forensic society, has been granted to Monmouth College. Membership in the local chapter is limited to men or women who have represented the college in intercollegiate oratorical or debate contests. The gold key, the emblem of membership, is awarded by the college each year to those who have become eligible.

SIGMA TAU DELTA

In February, 1926, the Rho Alpha Chapter of the Sigma Tau Delta, professional English fraternity, was organized at Monmouth with four faculty and twelve student members. Membership requires an average grade in all English work of not lower than "B" and a similar standing of the applicant in all of his other college work. The purpose of the chapter is to encourage professional writing among its members. Monthly literary programs are held from October to May at which original papers are presented and followed by an open forum discussion and criticism.

THE FORENSIC LEAGUE

This organization has for its primary object the planning for the preliminary and intercollegiate contests in oratory and debate. Other

like matters are often referred to it. Monmouth College is a member of the Intercollegiate Oratorical Association. In four of the past five years Monmouth has won the state contest and has represented Illinois in the interstate contest.

INTERCOLLEGIATE DEBATES

Interest in intercollegiate debating is high at Monmouth College and a strong schedule is carried out. During the season of 1929 twelve intercollegiate debates were held with the following institutions: Wheaton College, Carroll College, Marquette University, Augustana College, Cornell College, Hamline University, and St. Olaf College. In addition to the regular schedule four teams were entered in the Wisconsin-Illinois province convention tournament of Pi Kappa Delta where they competed against teams from ten colleges in the two states. From fifteen to twenty students, both men and women participate in intercollegiate contests each year.

INTERCOLLEGIATE ATHLETICS

Monmouth College is a member of the Mid-West Intercollegiate Athletic Conference, the Illinois Intercollegiate Athletic Conference and the Central Illinois Athletic Conference. All of the athletic contests are carried on under rules governing the members of these conferences.

Monmouth maintains intercollegiate teams in football, basketball, baseball, track and tennis.

WOMEN'S ATHLETIC ASSOCIATION

This organization is affiliated with the National Athletic Conference of American College Women.

Its purpose is to promote the health education of the Women of Monmouth College by means of:

1. Encouragement in the formation of health habits.

2. Promotion of the interest and participation in games and all forms of physical activity which make for health and efficiency.

The organization sponsors hiking, swimming, tennis, basketball, and hockey, and intramural contests in the various sports.

All activities are under the supervision of the Women's Physical Director.

DRAMATIC CLUB

The Crimson Masque has been organized for the purpose of developing dramatic appreciation and skill in acting.

The membership is limited and is equally divided between men and women. Members are admitted by try-outs in acting or in reading. A "C" average in scholarship must be maintained by each member.

Under the supervision of the faculty director, the club presents a program of one-act plays each month and one or two public productions during the year.

THE INTERNATIONAL RELATIONS CLUB

This club consists of students of the history and political science departments who are interested in the knowledge of the life, problems and aspirations of other people than our own. Monmouth is one of about forty colleges in the United States affiliated with the Institute of International Education of New York City.

FRATERNAL ORGANIZATIONS

Sororities and fraternities have been authorized by the Senate of the College. Seven such organizations have been recognized by the faculty and are functioning under faculty supervision. Three of these, Kappa Alpha Sigma, Pi Beta Phi and Phi Delta Sigma, are for young women, while the other four, Tau Kappa Epsilon, Pi Rho Phi, Phi Kappa Pi and Beta Kappa are young men's organizations. Each of the latter maintains its own home.

Beta Kappa, Tau Kappa Epsilon and Pi Beta Phi are affiliated with the national organizations of the same names. The other four are local organizations.

COLLEGE PAPER

The Oracle, a weekly paper, issued by the students, furnishes a fine opportunity to cultivate a literary taste and spirit, gain practice in news gathering, editing, proof reading, advertising and other fea-

tures of newspaper work. The college paper can be mutually helpful to students and the institution.

McKinnie Phelps and Roger Henderson were respectively Editor and Business Manager during 1928-1929.

GLEE CLUBS

The Monmouth College Glee Club. This is a permanent organization affording the young men of the school an opportunity for effective male chorus singing.

The club membership is kept at twenty. Each September all positions on the club are open for tryouts. Weekly rehearsals are held thruout the year. The Director and Manager are appointed by the College, while the club elects its own President and Student Manager.

The Girls' Glee Club. This is an organization among the young women which holds weekly rehearsals under a competent director.

MONMOUTH COLLEGE CHORAL SOCIETY

This society, while having its own officers, is affiliated with the college and offers students, at a merely nominal fee, the advantages of first class choral drills.

Under the direction of Mr. Wylie Stewart this organization presents the oratorio, "The Messiah" each year at the Christmas season; and also during the past year the society presented in the first semester a dramatized production of "The Rose Maiden" and in the second semester "Hiawatha."

ARTS AND CRAFTS

While Monmouth College does not maintain an art department as an integral part of her college work, yet for those who desire some instruction in china decoration; conventional and semi-conventional design; arts and crafts, etc., the opportunity is given in a private class under the direction of Miss Mary Agnes Nesbit, a competent and experienced instructor. Miss Nesbit maintains a well equipped studio in the Library Building.

Academic Regulations

Admission and Classification

All applicants for admission must bring satisfactory evidence of moral character.

Students who enter from other colleges must present letters of honorable dismissal and also a transcript showing the entrance credits accepted, together with the credits earned while in attendance at such schools.

Entrance credits are conditioned on the student's ability to do the succeeding work of the course.

Deficiencies in entrance requirements must be scheduled for before advance work is planned.

Entrance requirements are based upon a four year preparatory course of study. All high schools on the accedited list of the state universities of their respective states will be accorded the same privileges at Monmouth College.

Applicants from such high schools must have official certificates made out and sent to Monmouth College by the proper officer of the high school. These certificates should be in the hands of the registrar at least two weeks before the opening of school. No credits, either entrance or advanced, will be entered on our records without this certified transcript. Official certificate forms on which to make this report will be furnished by the college on applying to the president or registrar.

Work done in high schools on college subjects will not be accepted without examination or until a year's advanced work in the same subject has been satisfactorily completed in Monmouth College.

An applicant may be admitted to tentative rank if he has not more than one unit of unfinished entrance requirements. In determining the catalog classification of students thus admitted the value in semester hours of the unfinished entrance subjects will be deducted from the total college credits. A student who has any entrance requirements unsatisfied will not be advanced beyond sophomore standing until all entrance deficiencies have been removed.

ENTRANCE REQUIREMENTS

For admission to college standing fifteen units are required. A unit is defined as a subject carried for one year of not less than thirty-five weeks with five recitation periods of at least forty-five minutes each.

A graduate of a first grade high school who has earned at least 15 units, 9 of which are in the following subjects: English, foreign languages, mathematics, natural sciences, and social science, may be admitted to Monmouth College as a freshman and may graduate upon the completion of 124 hours of college work.

A student who has the following entrance credits: English, 3 units; foreign language, 2 units; history, 1 unit; laboratory science, 1 unit; mathematics, 2½ units (algebra, 1½; geometry, 1); and one additional unit from any of the above subjects, and sufficient other acceptable units to make a total of 15 is subject to the minimum requirements in college so far as courses required for graduation are concerned.

If the student does not present the entrance credits listed above, the number of required subjects which he must include in his college curriculum will be increased and the number of elective subjects correspondingly decreased as shown below. **(The additional work referred to is not in addition to the 124 hours required for graduation.)**

ENGLISH, 3 UNITS.

For each unit lacking in entrance credits, the student must complete one year of college English in addition to the six hours required of all students.

FOREIGN LANGUAGE, 2 UNITS.

No credit is given, in fulfillment of this requirement, for one year of modern language taken in high school unless the second year in that language is completed in high school or unless that language is continued in college.

For the A. B. degree, the student must have six years of foreign language credit, including high school and college language credit. At least three years of this credit must be in classical language, and at least one year of this credit must be earned in classical language in college.

For the B. S. degree, the student must have at least three years of credit in foreign languages, including high school and college language credit, and at least one year of this must be earned in college.

A student who offers no foreign language for entrance may qualify for the A. B. degree by completing five years of language work in college, three years of which must be classical language, and to qualify for a B. S. degree, he must complete two years of the same foreign language.

HISTORY, 1 UNIT

Unless a student offers for entrance at least one unit in history he must complete one year of college history in addition to the social science and philosophy group requirement for graduation.

LABORATORY SCIENCES, 1 UNIT

Unless a student offers for entrance at least one unit in laboratory science, he must complete one year of laboratory science in college in addition to the mathematics and science group requirement.

MATHEMATICS, 2½ UNITS

A student presenting but one unit of mathematics for entrance will be required to complete two years of mathematics in college; a student presenting two units for entrance, one year of mathematics in college; a student presenting 2½ units, one semester of mathematics in college.

ELECTIVE UNITS

The remaining four and one-half units may be distributed among the subjects named in the list of specified units or may include one-half unit in each of the following subjects: physiography, civics, economics, or one unit each from any vocational subject counted toward graduation in an accredited secondary school.

CLASSIFICATION

The records in the registrar's office for the annual catalog close on the last day of recitations preceding the Easter vacation.

The student who has presented satisfactory entrance credentials and who has gained at least twelve hours of college credit is ranked in the catalog as a freshman.

The student who has thirty-one hours of college credit, after deducting all entrance deficiencies, is ranked as a sophomore.

The student who has sixty-two hours of college credit, and who has no entrance deficiencies and no unfinished freshman requirements, is ranked as a junior.

The student who has ninety-three hours of college credit is ranked as a senior.

An applicant who does not present credentials showing that he is a graduate of a recognized accredited secondary school or a student who has not gained as many as twelve hours of college credit is classed as a special student. Such special students are subject to all class and college regulations which are applicable to regular members of the college.

Requirements for Graduation

THE GROUP SYSTEM

Fifteen equivalent groups of courses of study are offered by the college. These may lead either to the A. B. or the B. S. degree. In each group 124 semester hours are required for graduation. The unit of work is the semester hour, or one recitation period a week for one semester. Each group is in charge of a professor who acts as adviser for all students who select his group.

The groups and advisers are as follows:

I. Greek—Professor Telford.
II. Latin—Professor Van Gundy.
III. Mathematics—Professor Winbigler.
IV. Biology—Professor McMullen.
V. Chemistry—Professor Haldeman.
VI. English—Professor Robinson.
VII. Social Science—Professor Cleland.
VIII. History—Professor Clark.
IX. Romance Languages—Professor Goodrich.
X. Education—Professor Maynard.
XI. Biblical Literature—Professor Buchanan.
XII. German—Professor Barr.
XIII. Physics—Professor McClenahan.
XIV. Psychology Philosophy—Professor Thompson.
XV. Public Speech—Professor Toussaint.

Every student to secure a degree is required to complete a course of study consisting of:

1. 20 hours of a major subject offered by his group.
2. 14 hours in each of two minor subjects chosen by his adviser.
3. 6 hours of work in English.
4. 5 hours of work in Bible.
5. 2 hours of work in Speech.

6. 14 hours of work in each of the following combinations of allied subjects, except where the combination has been included in the major or one of the minor subjects:

Language	English, Latin, Greek, German, French, Spanish
Social Science and Philosophy	Philosophy, Education, Social Science, History
Mathematics and Science	Chemistry, Physics, Biology, Geology, Mathematics

7. The remaining semester hours necessary to complete the 124 required may be chosen as free electives. Four of these may be physical culture provided the work is taken in the freshman and sophomore years and under such conditions as are prescribed by the Faculty.

8. Altho "D" is a passing grade, yet to graduate it is felt that something more than a mere passing grade should be made in a majority of the courses carried. In addition, therefore, to the one hundred and twenty-four (124) semester hours required the student must make not less than 240 honor points.

A grade of "A" counts four honor points per semester hour.

A grade of "B" three honor points per semester hour.

A grade of "C" two honor points per semester hour.

A grade of "D" one honor point.

DEGREES

For a statement of the requirements in languages for the A. B. and the B. S. degrees, see ENTRANCE REQUIREMENTS.

B. S. Degree

To secure the B. S. degree the student majoring in a natural science must take in his college course not less than three years work in natural science.

A student not majoring in a natural science must complete two years of science, or he may complete one year of science and for the second year substitute either one year of mathematics in addition to the regular requirement or one year of foreign language in addition to the regular requirement.

Details of Work

COLLEGE YEAR

The college year consists of two semesters of eighteen weeks each. There are two vacations, one at the Christmas holidays, the other near the Easter season.

ENROLLMENT AND ENTRANCE REGISTRATION GENERAL REQUIREMENTS

1. All students on entering college enroll.

2. A new student, after securing a record of his entrance credits, will make out his registration for the semester under the direction of the freshman committee. This committee will advise him with reference to his work and guide him in making out his schedule. Provision for removing entrance deficiencies must be made before registering for college work.

3. A student who has previously attended Monmouth College, after enrolling will receive a registration card, on which, under the direction of his adviser, he will make out his course of study for the semester.

4. All students on securing the receipt of the treasurer upon their registration cards, will file these cards with the registrar. The card of admission to class will then be issued, but this card will not be issued until all bills for the semester have been paid and the student's name will not be placed on the class roll until the admission card has been received by the instructor. For each card of admission to class issued after the opening Wednesday of a semester, an extra fee of one dollar will be required.

5. When a student is advanced to sophomore rank he decides upon the group he wishes to pursue. The professor at the head of the group chosen henceforth becomes his adviser. The student must consult him in all matters pertaining to his work.

6. A student may not change his major subject except at the beginning of the academic year.

7. No student will be permitted to take more than sixteen hours of work per week without consent of the faculty. Permission to carry additional work must be granted by the committee on extra studies, but very rarely will permission be granted for more than eighteen hours The application for this work, approved by the student's adviser, must be made when registering.

DROPPING A COURSE—PROCEDURE AND RECORD

The student who wishes to discontinue a course in which he is regularly enrolled shall apply to the dean who will consult with the student's adviser and the teacher whose course it is proposed to drop.

A course may be taken in lieu of the one dropped only by consent of the dean, the student's adviser, and the teacher whose course it is proposed to enter and only when this change is made within the first three weeks of the semester.

A course from which a student withdraws without permission is recorded as "failure," as is also a course dropped with permission unless it is dropped not later than the week following the first survey of the semester. Exceptions are made in case of illness and other unavoidable circumstances.

STUDENTS PLACED ON PROBATION

A student who earns in any semester not more than 15 honor points is placed upon probation for the following semester. A student who in the semester that he is on probation earns not more than 15 honor points is required to withdraw from college for at least one semester.

REGISTRATION FOR SECOND SEMESTER

Registration for the second semester is made upon the opening day between the hours of 8:30 a. m. and 12 m. The registration cards must be on file with the registrar by the close of the registration hours. A fee of $3.00 is required of those who neglect registration at the appointed time.

RECITATIONS

In the freshman year subjects usually call for four recitation hours per week. In succeeding years they call for two or three. Definite information on this point may be found in the section on "Outline of Work of Departments." It is important that students be present at the first recitation in the subject. Regular attendance is essential to good work.

FRESHMAN-SOPHOMORE COURSES

The following subjects and courses shall be regarded as primarily for Freshmen and Sophomores:

Bible	III-IV
Biology	I-IV
Chemistry	I-IV
Economics	A, B, I-II-IX-X
English	I-IV
French	I-IV
German	I-IV
Geology	I-IV
Greek	I-IV
History	I-IV
Latin	A-B-C-D-I-IV
Mathematics	I-II
Physics	I-II
Political Science	I-II
Spanish	I-IV
Speech	I-IV

EXAMINATIONS

Each semester's work is regarded as complete in itself, and credit is given for the same, but the final examination in a subject covering more than a single semester may embrace the entire subject.

Students absenting themselves from regular examinations of their classes will be charged $1.00 for private examination in each subject. These examinations must be taken before the student is entitled to resume work. A receipt showing that the examination fee has been paid must be presented before the examination is given.

SPECIAL EXAMINATIONS

Examinations are held for students making up work at the time named in their application for the privilege of removing such work.

A student who has taken E or I and wishes to make up the subject must make application for such work within the first two weeks after the opening of the following semester. A fee of $2.00 will be charged, payable on the date of application. The grade in a course in which a condition (E) is removed is D. This restriction does not apply to courses in which an incomplete (I) is removed.

A condition or incomplete that is not removed within the semester following the date of receiving it is regarded as a failure.

A student who for any reason wishes to make up a subject without recitation in class must make application to the faculty for such work thru his adviser. The work must be taken under the direction of the head of the department to which the subject belongs and the regular fee plus special examination fee will be charged.

ABSENCES

Absence from class exercises for any cause, necessarily involves intellectual loss that can be made up only by special work, if at all. Absences are counted from the opening day of the semester until the student enrolls. A day's absence at the opening may cripple the work of an entire semester.

Students are permitted a limited number of absences for which no explanations need be offered. Absences beyond this number are excused when caused by illness, illness in the student's home, or absence as a representative of the college. Unexcused absences result in the loss of college credit.

GRADING AND HONORS

Honors are in no sense competitive; the student is ranked upon his own merit, not upon his comparative standing.

All students pursuing a subject are ranked according to the work as, A, B, C, D, I, E, or F.

A indicates Excellent.

B indicates Good.

C indicates Fair.

D indicates Passed.

E indicates Conditioned.

I indicates Incomplete.

F indicates Failure.

Each professor determines the rank of his own students in his own way.

Beginning with the class of 1929, the honors at graduation are either summa cum laude, magna cum laude, or cum laude. To be eligible to the honor summa cum laude or to the honor magna cum laude, the student must have taken his entire course in Monmouth College. To earn summa cum laude he must have earned 480 honor points; and to earn magna cum laude, 450 honor points. To earn the honor cum laude the student who has taken his entire course at Monmouth College must have earned 420 honor points. Students who have taken part of their college work elsewhere, but who have at least sixty-three (63) semester hours of college credit earned at Monmouth College may graduate cum laude if the work done at Monmouth has earned honor points at the average rate of 3¾ honor points per credit hour. The figures given for the required number of honor points, 480, 450, and 420 for the respective honors, are the numbers of honor points required when the student has earned 124 credit hours. Credit hours beyond one hundred and twenty-four (124) must earn honor points at the average rate required for the respective honors.

REPORTS

Reports are sent to parents or guardians at the close of each semester. The registrar should be notified in every case where the report fails to come within ten days after the close of the semester.

RECORDS

A permanent record of all credits obtained by each student is kept by the registrar. The credits are kept on the basis of a full semester, no entry being made for less. No credits are placed on the records except as they are officially reported by the professor under whom the work is done.

DEGREES

Degree on Graduation—The degree of A. B., or B. S., is awarded at graduation. (See "Requirements for Graduation.")

The course may be completed at the close of any semester but the formal graduation will occur at the Commencement in June, at which time all degrees are conferred.

Candidates for degrees shall, at the opening of the college year in which they seek their degrees, make formal application for the same. This application must be in the hands of the registrar not later than the fourth Wednesday of the first semester.

Outline of Work of Departments

DEPARTMENT OF BIBLICAL LITERATURE

J. Dales Buchanan, Professor

Herbert McGeoch Telford, Associate Professor

David A. Murray, Associate Professor

"Christian Leadership must know its Bible better than any other book."

Requirements for Graduation: Five hours of work in English Bible. Two of the five hours required in Bible must be in New Testament Literature (III, IV) and the course completed by the end of the sophomore year; the other three hours required for graduation must be in Old Testament Literature (I, IIa, IIb) and the course may be taken in either the junior or the senior year. Students may elect to take any one of the several courses offered in the N. T. and in the O. T. and they are free to do the work in any semester within the prescribed years.

Requirements for a major: Fifteen hours in addition to the Bible requirements for graduation. Of the total of twenty hours, ten must be elected in English Bible (I, IIa, IIb, III, IV). For majors, Courses V and VII are also required; the other five hours are free electives.

Requirements for a minor: Nine hours in addition to the Bible requirements for graduation. Of the total of fourteen hours, ten must be elected in English Bible (I, IIa, IIb, III, IV), the other four hours being free electives.

Requirements for the Standard Teacher's Diploma (awarded by the Bible School Department of the United Presbyterian Board of Publication and Sabbath School Work): Eight hours with an average grade of B. The courses specified are I, III, V, IX. A fee of fifty cents will be charged for the diploma.

Bible I. Old Testament History. A study in Genesis and a survey of Hebrew history down to the Roman period. Open to juniors and seniors only. First semester at 7:45 and 8:45, M. W. F. Three hours.

Bible IIa. Hebrew Poetry. A study of the poetical books of the Old Testament. Open to juniors and seniors only. (Alternates with Hebrew Prophecy, Bible IIb). Second semester at 7:45, M. W. F. Three hours.

Bible IIb. Hebrew Prophecy. A study of the prophetical books of the Old Testament. Open to juniors and seniors only. (Alternates with Hebrew Poetry, Bible IIa.) Second semester at 7:45, M. W. F. Three hours.

Bible III. Life and Character of Christ. A study in the Gospels. Open to freshmen and sophomores only. First semester 9:45, 10:45 and 1:30; second semester at 7:45 and 2:45.

Bible IV. Life and Character of Paul. A study in Acts and the Pauline epistolary literature. Open to freshmen and sophomores only; second semester at 9:45 and 10:45. T. Th. Two hours.

Bible V. Historical Geography of Bible Lands. A study in the geography and history of Palestine and the other lands of the Bible. First semester at 7:45, T. Th. Two hours.

Bible VI. Church History. A survey course in the history of the Christian Church, with special emphasis placed upon the Reformation in Germany and lands beyond. Second semester at 8:45, M. W. F. Three hours.

Bible VII. Christianity for Today. A seminar course, designed primarily for freshmen and sophomores, in the fundamental doctrines of Christianity. The chief creeds of Christendom will be given some consideration. First semester at 10:45, M. W. F. Three hours.

Bible VIII. Ethnic Religions. An introduction to the history of religion, emphasizing the life and character of the founders, the philosophic development and numerical and territorial expansion and the present faith and practice of the living religions of the world. Prerequisite: Bible III or Bible VII. Two hours.

Bible IX. Religious Education. A study in the organization and administration of the work of the Bible school, designed for prospective teachers. Two hours.

Bible X. Ethical and Social Teachings of Jesus. A study in the application of the principles of Christianity to the problems of modern life. Prerequisite: Bible III. Three hours.

Bible XIa. Great Preachers and Missionaries. A study in religious biography. Two hours.

Bible XIb. Missions. A study of the aims, principles, methods, and achievements of present day Christian missions. Two hours.

Bible XII. Modern Religious Cults and Movements. A study of Christian Science, Mormonism, Faith Healing, Spiritualism, Etc. Two hours.

Bible XIII. Thesis Course. Credit will be given under certain circumstances to students majoring or minoring in this department for

special research work done on assigned subjects or projects. Opportunity will be given for conference, and library assistance will be offered. Results of work will be written up in thesis form. Both semesters. One hour.

Bible XIV. Reading Course. Credit will be given under certain circumstances to students majoring or minoring in this department for reading done in prescribed fields of Biblical or religious interests. Results of work will be reported by written book reviews and by oral examination. Both semesters. One hour.

Bible XV. Philosophy of Religion. A course for advanced students, approaching the study of Christian doctrines from the scientific point of view of the present day. Three hours.

Bible XVI. Psychology of Religion. A course for advanced students, with special attention given to the psychology of conversion, etc. Three hours.

BIOLOGY

DONALD B. MCMULLEN, PROFESSOR

Biology I. A General Course in Botany. This course is devoted to the study of the plant kingdom; plant structure, classification, physiology, and relations to man and economic importance. Correlated topics of agriculture and forestry are included. Forms of flowers and the ecology of insects and flowers also receive notice. Open to freshmen and beginners in biology. First semester, lectures, T. Th. 9:45. Laboratory M. F. 1:15-3:15. Four hours.

Biology II. A General Course in Botany. Continuation of Biology I. Second semester. Lectures T. Th. Laboratory M. F. 1:15-3:15. Four hours.

Biology III. Invertebrate Zoology. An elementary course designed to give the student a broader concept of life; a study of the physiology and anatomy of the cell and invertebrate organisms. The medical and economic importance is stressed. First semester, Lecture T. Th. 7:45. Laboratory, T. Th. 1:15-3:15. Four hours.

Biology IV. Vertebrate Zoology. A continuation of Biology III; includes an introduction to heredity and embryology. Prerequisite: Biology III. Second semester, Lecture T. Th. 7:45. Laboratory, T. Th. 1:15-3:15. Four hours.

Biology V. Embryology. A study of the embryological development of vertebrates (chick and pig as related to human). Essentially a course for prospective students of medicine, but of vital interest to anyone. Prerequisite: Biology III, IV. Lecture W. 7:45. Labora-

tory M. F. (or T. Th.) 1:15-3:15. Alternates with Biology VII. Three hours.

Biology VI. Histology. This course deals with the technique and methods of preparing slides and tissues for microscopic study. The structure of different plant or animal tissues will be studied. Prerequisites: Biology I, II or III, IV. Lecture W. 7:45. Laboratory M. F. (or T. Th.) 1:15-3:15. Alternates with Biology IV. Three hours.

Biology VII. Bacteriology. A general course consisting of a study of culture methods, tests, morphology, counts, sanitation, and disease. Prerequisites: Chemistry I and II (or special arrangement). Lecture W. 7:45. Laboratory M. F. (or T. Th.) 1:15-3:15. Alternates with Biology V. Three hours.

Biology VIII. Genetics. A study of the laws of heredity in plants and animals by actual breeding experiments. One hour a week being devoted to lecture ,study of the practical bearing of genetics, eugenics and theory. Prerequisites: Biology III, IV. Alternates with Biology VI. Lecture W. 7:45. Laboratory M. F. (or T. Th.) 1:15-3-15. Three hours.

Biology XV. Physiology. A thorough study of the anatomy and physiology of the human body. The course covers nutrition, foods, personal hygiene and laws of health. Class text, Martin's "Human Body." The laboratory work is devoted to the physiology of the muscular, nervous, circulatory, digestive and excretory systems. Prerequisite: Biology I, II or III, IV. Lecture T. Th. 8:45. Laboratory W. 1:15-3:30. First semester three hours.

Biology XVI. Physiology. Biology XV continued. Lecture T. Th. 8:45. Laboratory W. 1:15-3:30. Second Semester. Three hours.

CHEMISTRY

William S. Haldeman, Professor

*Clair S. Boruff, Associate Professor

J. Roy Doty, Instructor

Requirements for a major: Chemistry I, II, III, IV, V, must be taken. Students who are preparing for graduate work in chemistry should also take Chemistry VI and X, and mathematics through calculus and at least three years of French and German. If only three years of language are taken it is suggested that this be two years of German and one year of French. German or French taken in high school will partly satisfy the language requirement. Majors must maintain at least a C plus grade in their chemistry courses.

*Absent on leave, 1928-1929.

Requirements for a minor: Chemistry I and II and any other courses to bring the sum of hours to at least fourteen.

Chemistry I. Non-Metallic Elements. A study of the non-metallic elements including some general fundamental laws and theories of chemistry. Two sections. First semester. Four hours.

Section A—Lectures, recitations, quizzes, M. W. F. at 8:45. Laboratory T. or W. or Th. 1:30 to 4:30.

Section B—Lectures, recitations, quizzes. M. W. F. at 10:45. Laboratory T. or W. or Th. 1:30 to 4:30.

Note: Special laboratory work is given for those who have had chemistry in high school.

Chemistry II. Metallic Elements. Continuation of Chemistry I, including the study of metals and their compounds, and advanced studies in ionization, equilibrium, and solubilities. Some time is devoted to the general principles of plant life and plant products such as sugars and starches; to fertilizers; to the relation of some of the elements to animal life; to fuels, especially stressing some of the products obtained from coal and coal tar. Laboratory work is mainly qualitative analysis. Prerequisite: Chemistry I. Second semester at 8:45 and 10:45, M. W. F. Laboratory T. or W. or Th. 1:30 to 4:30. Four hours.

Chemistry III. Qualitative Analysis. The identification of the elements and the acid radicals in "unknowns", including mixtures of increasing complexity. In this course extensive use is made of the theory of ionization, the Law of Mass Action and the principles governing solubilities. Prerequisite: Chemistry I and II. First semester at 9:45, T. (lecture-recitation); laboratory M. W. (F.) 1:00 to 5:00. Four hours.

Chemistry IV. Quantitative Analysis. This course takes up the manipulation and also the principles involved in some typical gravimetric and volumetric determinations. Students analyze many compounds. Problems and question sheets are used continually to develop a clear understanding of the principles involved in quantitative analysis. Prerequisite: Chemistry I and II. Second semester at 9:45 T. (lecture-recitation); laboratory M. W. F. 1:00 to 5:00 Five hours.

Chemistry V. Organic Chemistry. General chemistry of the hydrocarbons and their derivatives. The paraffin and unsaturated series. Prerequisites: Chemistry I to IV or instructor's consent. First semester at 10:45 T. Th. (lecture-recitation); laboratory M. or T. 1:00 to 5:00. Four hours.

Chemistry VI. Organic Chemistry. Continuation of Chemistry V. Carbocyclic and hetercyclic compounds. Prerequisites: Chemistry I to V. Second semester at 10:45 T. Th. (lecture-recitation); laboratory M. or T. 1:00 to 5.00. Four hours.

Chemistry X. Elementary Physical Chemistry. An introduction

to the field of physical chemistry. Course includes: The advanced study of the theories studied in the elementary courses, the simpler and complex gas laws, specific heats, solubility, vaporization, the phase rule, thermochemical changes, molecular weight determinations, colloidal solutions, electrolytes, the structure of the atom and other subjects. No laboratory but many experiments are performed on the lecture table. Prerequisites: Chemistry I to IV. Physics I and II. Mathematics Ia. Second semester at 7:45. T. Th. Two hours.

Chemistry XII. Teaching of Chemistry: (See Education F.) A study of the psychological and educational principles in the teaching of general science with a special consideration of the teaching of chemistry. Education credit. Prerequisite: Chemistry I, II and III and one to three semesters of education. Second semester at 7:45, T. Th. Two hours. (Not given 1929-30.)

Chemistry XIII. Research. Prerequisites: Chemistry I to IV or instructor's consent. First semester, laboratory hours to be arranged. One to three hours.

Chemistry XIV. Research. Continuation of Chemistry XIII. Second semester, laboratory hours to be arranged. One to three hours.

Chemistry XVI. Water Laboratory. Methods of analyzing waters for domestic and industrial purposes. Dissolved oxygen, biological oxygen demand, relative stability, bacterial counts and other tests are studied in the laboratory. Field trips are made and laboratory tests applied. Some consideration is given to the different methods of water softening. Prerequisites: Chemistry I and II. Second semester, laboratory, Saturday, 8:00. One hour.

EDUCATION

Milton M. Maynard, Professor

Edith J. Morton, Associate Professor

Students expecting to teach in Illinois should plan to take Education IIa or IIb and Education VI. Those expecting to teach in high school should present in addition to the courses mentioned sufficient credit in education to make the total not less than fifteen hours, two of which should be in the teaching of the major subject. Those not living in Illinois should strive to meet the requirements of their respective states. Students whose major is education will be expected to take Education IIb, III, IV and VI unless the requirement is waived by the head of the department.

Education I. Principles of Education. An introductory course in which the aim of education, the organization of the school, the course of study and the general problems of teaching are considered. Prere-

quisite, in general, to all other courses in education. First semester, 9:45 and 10:45, M. W. F. Three hours.

Education IIa. Principles of Teaching in Elementary School. A study of the principles of teaching with special reference to the work of the elementary school. Prerequisite, Education I. Second semester, 9:45, M. W. F. Three hours.

Education IIb. Principles of Teaching in High School. A study of the principles of teaching with special reference to the secondary school. Primarily for seniors but open to juniors. Prerequisite, Education I or VII. Second semester, 10:45, M. W. F. Three hours.

Education III. History of Education since 1789. A comparative study of education in France, Germany, England and United States. For juniors and seniors. First semester, 7:45, M. W. F. Three hours.

Education IIIa. History of Education in United States. A study of the history of education in United States to 1900. First semester, 7:45, M. W. F. Three hours.

Education IV. History of Education in United States since 1900. A study of the history of education in United States with special reference to present day educational problems. Second semester, 7:45, T. Th. Two hours.

Education V. Educational Administration. Educational Administration in United States with special reference to present trends and practices. Prerequisite, Education I or III or IIIa. First semester, 10:45. Two hours.

Education VI. Educational Psychology. A study of individual differences, measurement of individual differences, conditions of effective mental work, the laws of learning with special reference to the bearing of such principles upon effective study and teaching. Second semester, 7:45 and 8:45. M. W. F. Two hours.

Education VII. Principles of Secondary Education. A study of the major problems of high school teaching and administration. For juniors and seniors. First semester, 10:45, M. W. F. Three hours.

Education IX. Educational Measurements. The science of measurement as applied to education; the interpretation of educational statistics. Prerequisite, Education I. First semester, 7:45, T. Th. Two hours.

Education X. Education of Exceptional Children. A study of the exceptional child; the obligation of society to such children. Prerequisite, Education I or VI. Second semester, 7:45, T. Th. Two hours.

Education XI. Advanced Educational Psychology. The psychology of elementary school subjects. Prerequisite, Education VI. First semester, 8:45, T. Th. (Not offered, 1929-1930.) Two hours.

Education XII. Advanced Educational Psychology. The psychology of high school subjects. Prerequisite, Education VI. Second semester, 8:45, T. Th. Two hours. (Not offered 1929-1930).

Education XIII. Mental Hygiene. A study of mental hygiene with emphasis upon the duty of the school in looking after the health of the child. First semester, 8:45, T. Th. Two hours.

Education XIV. Child Psychology. A study of child psychology with special reference to the growth and development of the school child. Prerequisite, Education VI. Second semester, 9:45, T. Th. Two hours.

Education XV. Educational and Vocational Guidance. A study of vocational psychology in its bearing upon educational and vocational guidance. Prerequisite, Education VI. Second semester, 8:45, T. Th. Two hours.

Education A. The Teaching of English. (See Department of English).

Education B. The Teaching of Social Science. (See Department of History.)

Education C. The Teaching of Mathematics. (See Department of Mathematics.)

Education D. The Teaching of Modern Languages. (See Department of Modern Languages.)

Education E. The Teaching of Latin. (See Department of Latin.)

Education F. The Teaching of Chemistry. (See Department of Chemistry.)

Education G. The Teaching of Physical Training. (See Department of Physical Training.)

Education H. The Teaching of Music. (See Department of Music.)

Education I. Religious Pedagogy. (See Department of Bible).

Education J. The Teaching of Speech. (See Department of Speech).

Education K. The Teaching of Physics. (See Department of Physics).

ENGLISH

Luther Emerson Robinson, Professor

Eva M. Hanna, Assistant Professor

Emma Gibson, Instructor

Edna McEwen, Instructor

Earle R. Davis, Instructor

English I. The Writing of English Prose. A course in exposition with some attention to argument. Special study of the English vocabulary, paragraph structure and style; daily and fortnightly themes, criticisms and consultations; required reading in biography, the essay and fiction. Prerequisite, entrance requirements. First semester at 7:45, 8:45, 9:45, 10:45 and 1:30. M. W. F. Three hours.

English II. The Writing of English. A continuation of English I based upon an introduction to the study of the art of the short story, the essay, the novel, and the types of poetry. Prerequisite: English I. Second semester at 7:45, 8:45, 9:45, 10:45 and 1:30. M. W. F. Three hours.

English III. Survey of English Literature. English prose literature from Bacon to Stevenson including representative essays, fiction, biography, and criticism. Lectures and library assignments. Prerequisite: English I-II. First semester at 7:45, 9:45, 10:45 and 1:30. M. W. F. Three hours. (Not given 1929-30).

English IV. Survey of English Literature. Continuation of English III with emphasis upon the history and interpretation of English poetry in its different periods and types and its influence upon English life and character. Library readings and criticism. Prerequisite: English III. Second semester at 7:45, 9:45, 10:45 and 1:30. M. W. F. Three hours. (Not given 1929-30).

English V. The Renaissance and Milton. A study of the Renaissance in England from the viewpoint of literature with its culmination in Milton. The course includes the reading of Milton's longer poems and the consideration of Milton's influence on English poetry. Prerequisite: English III and IV or IX and X. First semester at 8:45, M. W. F. Three hours. (Given 1929-'30.)

English VI. The English Romantic Movement. Emphasis is laid upon the poetry of Wordsworth and Shelley, with some attention to their critical prose. Lectures and library readings. Prerequisite: English III and IV or IX and X. Second semester at 8:45, M. W. F. Three hours. (Not given 1929-1930.)

English VII. The English Drama. The development of the drama in England from its beginnings with selected readings. Special

attention is given to Shakespeare including the intensive study of a number of his plays. Prerequisite: English III and IV or IX and X. First semester at 8:45, M. W. F. Three hours. (Not given 1929-1930.)

English VIII. Browning and Tennyson. A detailed study of their poetry. Lectures on the Victorian period and its leading literary figures. Prerequisite, English III and IV or IX and X. Second semester at 8:45, M. W. F. Three hours. (Given 1929-1930.)

English IX. American Literature, (Prose). Lectures and library readings on the history of American literary prose: readings especially from the works of Irving, Hawthorne, Thoreau, Poe, Emerson, Lowell, Holmes and Higginson. Prerequisites: English I and II. First semester at 9:45 and 10:45, M. W. F. Three hours. (Given 1929-1930.)

English X. American Literature, (Poetry). A study is made of selected poems of Bryant, Poe, Emerson, Lowell, Holmes, Whittier, Whitman, and Lanier. Collateral readings in literary criticism and biography. Prerequisites: English I and II. Second semester at 9:45 and 10:45, M. W. F. Three hours. (Given 1929-1930.)

English XI. Contemporary Drama. Lectures on the development of the modern drama. A study of selected plays of leading American, English and continental dramatists. Prerequisite: English III and IV or IX and X. First semester at 7:45, T. Th. Two hours. (Not given 1929-1930.)

GERMANIC LANGUAGES

EVA LOUISE BARR, PROFESSOR

NOTE: The courses in Spanish are given under the direction of this department. For descriptions of courses see Romance Languages.

GERMAN

Students may carry German thruout the four years of their college course and may major in it.

A German club, meeting from time to time, is both interesting and beneficial.

German I and II. Elementary Course. Grammar, reading, practice in conversation. Texts vary from year to year. Whitney and Stroebe's Brief Course in German is the grammar used in 1928-1929. Seniors electing this course will read 200 pages more than the amount required for other members of the class. Both semesters at 7:45 and 9:45, M. W. Th. F. Four hours.

German III and IV. Modern Prose and Poetry. This course includes grammar review, composition and short stories by present day authors in addition to standard texts—collateral reading in science or

literature to suit individual taste. Prerequisite: German I and II or equivalent. Both semesters at 8:45, M. W. F. Three hours.

German V and VI. German Drama. Study of the most important dramatists from Lessing to Hauptmann. Reports on collateral reading. Both semesters at 8:45. Two hours. T. Th. (Alternates with German VII and VIII.)

German VII and VIII. Survey of German Literature. Selections from representative authors of different periods including in second semester some modern novels. Texts this year include Priest's, a brief history of Germany literature and Thomas' German Anthology. Both semesters at 8:45, T. Th. Two hours. (Alternates with German V and VI.) (Not offered in 1929-1930.)

German IX and X. Advanced Prose Composition. Both semesters at 10:45, M. One hour.

GREEK

HERBERT MCGEOCH TELFORD, PROFESSOR

Greek I. Beginners' Course. Grammar and Reader. First semester at 7:45, M. T. W. Th. F. Five hours.

Greek II. Xenophon. Anabasis with continued study of grammar. Prerequisite: Greek I. Second semester at 7:45, M. T. W. Th. F. Five hours.

Greek III. Homer. Iliad or Odyssey. Prerequisites: Greek I and II. First semester at 8:45, M. W. F. Three hours.

Greek VI. Plato. Apology and Crito, with an outline study of Greek Philosophy. Prerequisites: Greek I and II. First semester at 8:45, M. W. F. Three hours. (May alternate with Greek III.)

Greek VII. Greek Historians. Selections from Herodotus and Thucydides. Prerequisites: Greek I to III. Second semseter at 8:45, M. W. F. Three hours.

Greek VIII. Greek Drama. Euripides and Sophocles. Medea and Antigone or two other tragedies with study of the Greek drama. Prerequisites: Greek I to III. First semester at hour arranged, M. W. F. Three hours.

Greek VIIIa. Greek Drama. Aristophanes, two comedies. Second semester at hour arranged, M. W. F. Three hours.

Greek IX. New Testament. Selected books with study of New Testament. Selected books with study of New Testament grammar. Prerequisites: Greek I to IV. First semester at 10:45, M. W. F. Three hours.

Greek X. New Testament. Slected books with a study of manuscripts and textural criticism. Prerequisites: Greek I to IV, IX.

COURSES IN ENGLISH LANGUAGE

These courses are open without foreign language prerequisite.

Greek XI. Greek Mythology and Religion. First semester at 10:45, T. Th. Two hours.

Greek XII. Greek Civilization. Introduction to Greek life and art. First semester at 10:45, T. Th. Two hours. (Alternates with Greek XI.)

Greek XIII. Greek Literature. Survey of Greek writers and readings from best translations. Second semester at 10:45, T. Th. Two hours.

HISTORY

D. O. Clark, Professor

History I and II are to be taken consecutively, but may be taken in either order. No credit will be given for either course without the other, except in the case of seniors and by special permission of the head of the department. In case of History III to VI inclusive no credit will be given except for two consecutive courses which may be taken in any order.

Semester credit is given for all other courses.

Requirement for a major: Courses I, II, IX and X and other courses to make 20 hours.

Students in History VII and VIII will be organized into a group and devote a few recitations to special subjects under the International Relations Club. Members of these courses will be expected to subscribe for *Current History.*

History IX and X are required for all majors in history in their junior or senior year and are to be taken consecutively. Students wish-

ing recommendations from the History Department to teach history are expected to have passed creditably at least fourteen hours in history, including courses IX and X.

MATHEMATICS

ALICE WINBIGLER, PROFESSOR

LOUISE MCCOY, INSTRUCTOR

Courses 1b and 1c are not accepted as part of the 20 hours required of a major student in mathematics.

Mathematics I. (a). College Algebra. Review of quadratics,

graphical representations, binomial theorem, progressions, undetermined coefficients, theory of logarithms and equations. Prerequisites, one and one-half units of algebra. First semester at 9:45 and 10:45. M. W. Th. F. Four hours.

Mathematics I. (b). Solid Geometry. (Course for students who have not received entrance credit in solid geometry). First semester. 7:45. M. W. Th. F. Four hours.

Mathematics I. (c). Algebra. For students presenting only one unit of entrance algebra. Second semester, 7:45. M. W. Th. F. Two hours.

Mathematics II. Trigonometry, Plane and Spherical. Theory of trigonometric ratios, trigonometric equations, transformations and developments, solution of plane and spherical triangles. Prerequisite, Mathematics I. Second semester at 8:45, 9:45, 10:45 and 1:30, M. W. Th. F. Four hours.

Mathematics III. Analytic Geometry. Application of rectilinear and polar coordinates to the point, line and conic sections; general equations of the second degree higher than plane curves. Prerequisites, Mathematics I (a) and II. First semester at 8:45. M. W. F. Three hours.

Mathematics IV. Differential Calculus. Differentiations, evaluation of indeterminate forms, maxima and minima, and plane curves. Prerequisites, Mathematics I to III. Second semester at 8:45. M. W. F. Three hours.

Mathematics V. Integral Calculus. Elementary forms of integration, successive integration, length of curves, areas and volumes. Prerequisite, Mathematics IV. First semester at 1:30, M. W. F. Three hours.

Mathematics VI. Theory of Equations and Determinants. A continuation of equations given in Mathematics I. Prerequisites, Mathematics I and II. Second semester at 1:30, M. W. F. Three hours.

Mathematics X. Astronomy. Study of fundamental facts and principles; the location and study of constellations. Prerequisite, 48 hours' credit including mathematics I and II. Second semester at 1:30 M. W. F. Three hours.

Mathematics XI. Analytic Mechanics. Prerequisite. Mathematics V.

Mathematics XII. The Teaching of Mathematics. A study of the history and methods of teaching mathematics in American schools. Prerequisites, Mathematics I and II. Second semester. T. Th. Two hours. (Not offered 1929-1930.)

Note—Courses VI and X offered alternate years.

MUSIC

T. Merrill Austin, Director

College credit will be given for the following courses in musical theory when elected under the same conditions as courses in other departments, provided the election is approved in advance by the director of the Conservatory of Music and the student's adviser. No credit will be given, however, for work not continued at least one full year.

Students desiring to receive credits in college on the electives in music must schedule for the subject when making out college registration card. Otherwise credit will not be granted.

For detailed account of these courses see the announcement of the Conservatory of Music.

Music A. Elementary and Keyboard Harmony. Prerequisite to all other courses in harmony. First semester, two recitations per week. No college credit.

Music II. Harmony. Prerequisite: Music A. Second semester, two recitations per week. Two hours.

Music III. Harmony. Prerequisite: Music II. First semester, two recitations per week. Two hours.

Music IV. Harmony. Prerequisite: Music III. Second semester, two recitations per week. Two hours.

Music V. Analytical Harmony. Prerequisite: Music IV. First semester, two recitations per week. Two hours.

Music VI. Counterpoint. Prerequisite: Music V. Second semester, two recitations per week. Two hours.

Music VII. Interpretation and Analysis. First semester, two recitations per week. One hour.

Music VIII. Interpretation and Analysis. Prerequisite: Music VII. Second semester, two recitations per week. One hour.

Music IX. History of Music. First semester, two recitations per week. One hour.

Music X. History of Music. Prerequisite: Music IX. Second semester, two recitations per week. One hour.

In addition to the credits in theoretical music specified above ten credits or semester hours in practical music may be allowed to count as electives toward the A. B. or B. S. degree on the following conditions.

1. These credits must be in advanced work and under teachers offering graduating courses. Nothing below the sophomore year in

music can be counted and nothing which has not been preceded by at least a year of harmony and a year of interpretation and analysis.

2. Six of these credits, provided all other conditions have been met, will be given after the student's junior recital and the remaining four after a senior or graduating recital.

PHILOSOPHY AND PSYCHOLOGY

SAMUEL M. THOMPSON, PROFESSOR

Requirements for majors: Eleven hours in addition to Psychology I., Philosophy III., and Philosophy IV. Students who are majors in this department are advised to take Philosophy V. and Philosophy VI.

PHILOSOPHY

Philosophy II. Introduction to Philosophy. An introduction to the general field of philosophy, with special attention to the development by the student of a reflective and critical outlook upon life. This course is designed for sophomores, but is open to juniors and seniors. Second semester at 8:45, M. W. F. Three hours.

Philosophy III. History of Greek Philosophy. A survey of Greek philosophy, with emphasis upon its relations to the social and political conditions of the ancient world. Sufficient attention will be given to the philosophy of the middle ages to show the continuity between ancient and modern thought. This course is required for majors in philosophy and psychology. Alternates with Philosophy V. Prerequisites: General Psychology or Introduction to Philosophy. First semester at 10:45, M. W. F. Three hours.

Philosophy IV. History of Modern Philosophy. A survey of the main systems of philosophy of the modern period. The philosophers of this period will be studied with special attention to their influence in determining the standpoint of contemporary philosophy and science. This course is required for majors in philosophy and psychology. Alternates with Philosophy VI. Prerequisite: General Psychology or Introduction to Philosophy. Second semester at 10:45, M. W. F. Three hours.

Philosophy VI. Ethics. A study of the conditions necessary for the ing, and of the special problems which arise in connection with the knowledge process. Attention will be directed to the concrete activity of thought in the various fields of human experience. Alternates with Philosophy III. Open to juniors or seniors who have had General Psychology or Introduction to Philosophy. First semester at 10:45, M. W. F. Three hours (Not given 1929-1930.)

Philosophy VI. Ethics. A study of the conditions necessary for the

realization of the good in human life, and an attempt to determine the nature of the good. Some attention will be given to the main historical systems of ethics, and to the possible social applications of ethical principles. This course is recommended especially for majors in Bible and in sociology. Alternates with Philosophy IV. Open to juniors and seniors who have had General Psychology or Introduction to Philosophy. Second semester at 10:45, M. W. F. Three hours. (Not given 1929-1930.)

Philosophy VII. Locke and Hume. A seminar course open only to advanced students by special arrangement with the instructor. Two hours.

Philosophy VIII. Descartes and Spinoza. A seminar course open only to advanced students by special arrangement with the instructor. Two hours.

Philosophy IX. Problems of Contemporary Philosophy. A systematic study of the main problems which have held the attention of philosophers during the past fifty years. The work of this course and of Philosophy XI are complementary. Alternates with Philosophy XI. Three hours of philosophy and junior or senior standing. First semester at 8:45, T. Th. Two hours.

Philosophy X. Political Philosophy. A survey of the more significant historical theories of the state. This course is recommended especially for majors in history and political science. Alternates with Philosophy XII. Open to juniors and seniors. Second semester at 8:45, T. Th. Two hours.

Philosophy XI. Recent English and American Philosophy. A study of the main tendencies in English and American philosophy of the present time. Particular emphasis will be placed upon the leading representatives of Idealism, Pragmatism, and Neo-Realism. The work of this course and of Philosophy IX are complementary. Alternates with Philosophy IX. Open to juniors and seniors who have had three hours of philosophy. First semester at 8:45, T. Th. Two hours. (Not given 1929-1930.)

Philosophy XII. Philosophy of Science. A study of the origin and development of present day scientific concepts. An attempt will be made to harmonize the contemporary scientific point of view with a more comprehensive philosophical position. Recommended for majors in the natural sciences. Alternates with Philosophy X. Open to juniors and seniors. Second semester at 8:45, T. Th. Two hours. (Not given 1929-1930.)

Philosophy XIII. Plato. Seminar course open only to advanced students by special arrangement with the instructor. Two hours.

Philosophy XIV. Aristotle. A seminar course open only to advanced students by special arrangement with the instructor. Two hours.

Philosophy XV. Kant. A seminar course open only to advanced students by special arrangement with the instructor. Two hours.

Philosophy XVI. Hegel. A seminar course open only to advanced students by special arrangement with the instructor. Two hours.

Philosophy XVII. Metaphysics. A seminar course open only to advanced students by special arrangement with the instructor. Two hours.

Philosophy XVIII. Metaphysics. Continuation of Philosophy XVII. Two hours.

PSYCHOLOGY

Psychology I. General Psychology. A systematic survey of the various responses made by the human organism to its environment. This course is an introduction to the general field of psychology, and is designed especially for sophomores. First semester at 7:45 and 8:45; second semester at 7:45, M. W. F. Three hours.

Psychology V. Abnormal Psychology. A study of abnormal mental phenomena and a comparison of these with normal mental processes. Alternates with Psychology XI. Prerequisite: General Psychology. First semester at 7:45, T. Th. Two hours. (Not given 1929-1930.)

Psychology XI. Comparative Psychology. A comparison of the psychological responses of the higher animals with those of man. Special study will be made of recent experimental work in this field. Alternates with Psychology V. Prerequisite: General Psychology. First semester at 7:45, T. Th. Two hours.

Psychology XII. Social Psychology. A study of the influence of man's social environment upon his behavior. Attention will be given to the psychological aspects of present social problems. Recommended especially for majors in social science. Prerequisite: General Psychology. Second semester at 7:45, T. Th. Two hours.

PHYSICAL EDUCATION

HERBERT L. HART, DIRECTOR AND ATHLETIC COACH

VIRGINIA MCEWEN, DIRECTOR OF PHYSICAL EDUCATION FOR WOMEN

JAMES F. VAN ANTWERP, COACH AND GYMNASIUM INSTRUCTOR

ALEX THOM, ASSISTANT COACH, SWIMMING AND GYMNASIUM INSTRUCTOR

Four hours of credit for Physical Education are allowed toward a

bachelor's degree. These credit courses should be taken in the freshman and sophomore years.

FOR WOMEN

Physical Education I and II. In these courses emphasis is laid upon the following:

1. Postural and corrective work.

2. Accuracy of form and movement (marching tactics, calisthenics.)

3. The teaching of rhythm (drills, dances, etc.)

4. Quick perception and good sportsmanship. (Games, Athletics). Required of freshman women. Two days per week.

Physical Education III and IV. Continuation of physical education I and II. Required of sophomore women. Two days per week.

Physical Education V. Hygiene and Individual Gymnastics. This course is open to juniors and seniors. It is intended to be of help to those who as high school teachers are called upon to give some instruction in physical training. Hygiene, individual gymnastics and corrective work, kinesiology and first aid. First semester, T. Th. Two hours.

Physical Education VI. Methods and Teaching of Physical Education. Games and playground practice. Practice teaching of the various phases of physical training. Second semester, T. T. Two hours.

FOR MEN

Physical Education I and II. Elementary Physical Education. Calisthenics, gymnastics, tumbling, group and circle games, elements of football, basketball, baseball, track and tennis. Required of freshman men. Both semesters, two days each week. Two hours.

Physical Education III and IV. Elementary Physical Education. Continuation of Physical Education I and II. Required of sophomore men. Both semesters, two days each week. Two hours.

Physical Education VII and VIII. Coaching and management of Athletics. Lectures and demonstration in the fundamentals of football, basketball, baseball and track. Management of athletics is also discussed. The course is intended to aid students who intend to coach and teach in high schools. Open to junior and senior men, others may be admitted by special permission. Both semesters, hours and days to be arranged. Two hours.

PHYSICS AND GEOLOGY

FRANCIS M. MCCLENAHAN, PROFESSOR

GEOLOGY

Geology I. Physical Geology. Lectures, discussions, quizzes in dynamic and structural geology and elementary mineral interpretation of rocks. Laboratory: determinative mineralogy, Geology 1a required unless excused by instructor. First semester at 10:45, M. W. F. Three hours.

Geology Ia. Determinative Mineralogy. A laboratory course in the determination of minerals. This course is required of all students electing Geology I, unless excused by the instructor. First semester, 1:00 to 4:00, Th. One hour.

Geology II. Historical Geology. Lectures, discussions, quizzes in historical geology, dealing with earth history as indicated by fossils and structural geology. Geology IIa is not required, but is highly recommended. Prerequisite: Geology I. or by special permission. Second semester at 10:45, M. W. F. Three hours.

Geology IIa. Interpretation of Geologic Maps. An introductory laboratory study of typical copies of the United States Geological Survey Atlas with reference to topographical, areal and structural features of sections of the United States. Prerequisite: Geology I and Ia. Second semester 1:00 to 4:00, Th. One hour.

Geology III. Economic Geology. A survey of geologic products in relation to their usefulness to man. Coincident are discussions of various processes used and useful in extracting economic values from rock products. Geology IIIa is not required, but is recommended. Prerequisite: Chemistry I and II, Geology I and II or by special permission. First semester at 7:45, M. W. F. Three hours.

Geology IIIa. Elementary Petrology. A survey laboratory study of typical rocks and their classification. Much use is made of the microscope in these studies. Must be accompanied by Geology III. Prerequisite: Geology Ia. First semester, 1:00 to 4:00, T. One hour.

Geology IV. Economic Geology. A continuation of Geology III, but dealing more specifically with the ore deposits, and the coincident industries extracting the metallic values. Much attention is given to the balancing of world supplies and other industrial economic factors. Prerequisite: Geology III. Geology IVa is advised as an accompaniment. Second semester at 7:45, M. W. F. Three hours.

Geology IVa. Economic Geology Laboratory. A critical study of flow sheets of industries consuming geologic products and producing values therefrom for the use of man. Prerequisite: Geology III. Must be accompanied by Geology IV. Second semester, laboratory, 1:00 to 4:00, Th. One hour.

PHYSICS

Physics I. Mechanics, Sound, Heat. Principally a laboratory course, augmented by informal discussions and quizzes. This course deals with the fundamental principles of the subjects considered and presumes the student has had a high school course in physics, but it is not prerequisite for otherwise qualified students. Prerequisite: Mathematics II or by special permission. First semester at (recitation) T. Th. 7:45; (laboratory) 1:00 to 4:00, W. F. Four hours.

Physics II. Magnetism, Electricity, Light. A continuation of Physics I, but dealing with subjects of "magnetism, electricity, light." It is presumed the student has had a high school course in physics, but it is not prerequisite for otherwise qualified students. Prerequisite: Mathematics II or by special permission. Second semester at (recitation), T. Th. 7:45; (laboratory) 1:00 to 4:00, W. F. Four hours.

Physics III. Advanced Experimental Physics. A course in constructive experimental physics, individual in application, and dealing with problems and verifications not covered in Physics I and II. Laboratory and conference. Prerequisite: Physics I and II. First semester days and hours for conference to be arranged; (laboratory) T. Th., 7:45 to 10:45. Three hours.

Physics IV. Advanced Experimental Physics. A continuation of Physics III. Prerequisite: Physics I, II, III. Second semester, days and hours for conference to be arranged; (laboratory) T. Th., 7:45 to 10:45. Three hours.

ROMANCE LANGUAGES

FRENCH AND ITALIAN

CHARLES GOURLAY GOODRICH, PROFESSOR

MARION WHEELER GOODRICH, INSTRUCTOR

SPANISH

EVA LOUISE BARR, PROFESSOR

MARY PAULDING BARNETT, ASSISTANT PROFESSOR

Students may major in modern languages, as well as in French Spanish, or German, but only one beginning course may be counted toward the major.

FRENCH

The courses are so arranged that students may carry French

thruout the four years, including those who present advanced French for entrance.

Election of courses for a semester is possible but not advisable. Seniors electing French I and II are required to read at least 200 pages of French in addition to the work regularly required of the class. All classes are conducted in French from the beginning, so far as practicable and expedient. Text books are changed frequently, those mentioned being in use this year.

A flourishing French Club, La Société Française, open to students and others interested in the study of French, meets the second Tuesday in each month.

FRENCH

French I and II. Elementary. Olmstead and Sirich's Beginners' French Grammar, Spink's Le Beau Pays de France, De Maistre's La Jeune Sibérienne, Halévy's L'Abbè Constantin. Daily practice in pronunciation, dictation, conversation and sight reading. Both semesters at 8:45 and 9:45, T. W. Th. F. Four hours.

French III and IV. Intermediate French. Barton and Sirich's French Review Grammar and Composition, once a week, LeSage's Gil Blas, Dumas' La Tulipe Noire, LeBraz' Contes Bretons, Fischer's Histoires Drôles pour la Jeunesse, Erckmann-Chatrian's Le Juif Polonais. Conversation, dictation, sight and collateral readings. Both semesters at 7:45 and 10:45, M. W. F. Three hours.

French V. and VI. Nineteenth and Twentieth Centuries. Chateaubriand, Lamartine, Hugo, Loti, Rostand, and Anatole France are read partly in class, partly as collateral and sight reading. Conversation. Prerequisite: French III and IV. Both semesters at 9:45, M. W. F. Three hours.

French VII and VIII. Seventeenth and Eighteenth Centuries. A study of the best works of the classic period continued thru Beaumarchais, Marivaux and Voltaire. Prerequisite: French V and VI. Both semesters at 7:45, T. Th. Three hours. Alternates with French XIII and XIV. (Not given in 1929-1930.)

French IX and X. History of French Literature. Vreeland and Michaud's Anthology of French prose and poetry; Roz' Littérature Française; lectures, and collateral reading. Highly desirable for those who expect to teach French. Prerequisite: French V and VI. Both semesters at 10:45, T. Th. Three hours. Alternate with French XI, XII, XV and XVI.

French XI and XII.—Teachers' Course. Required of those who desire the departmental recommendation for teaching. Discussion of methods and practical problems of French teaching. Special attention to pronunciation and phonetics. Observation and practice teaching. Credit given only upon completion of both courses. Prerequisites: junior

or senior standing. Both semesters at 10:45, Th. One hour each semester. Alternate with French IX and X. (Not given in 1929-1930).

French XIII and XIV. Nineteenth Century Novels. Balzac's Eugénie Grandet and Le Curé de Tours, Hugo's Notre Dame de Paris Dumas' Le Chevalier de Maison-Rouge; Sand's François le Champi; Laboulaye's Abdallah; Selections from Zola. Daily sight reading, conversation and frequent collateral. Prerequisite: French V. and VI. Both semesters at 7:45, T. Th. Three hours. Alternate with French VII and VIII.

French XV and XVI. Advanced Composition and Conversation. Posgate's Advanced French Composition. Prerequisite: French V and VI. Should be elected by those expecting to teach. Alternate with French IX and X. Both semesters at 10:45. T. (Not given in 1929-1930.)

French XVII and XVIII. Scientific French. Projected for those scientific students who wish to do their graduate language work in French. Prerequisite: Satisfactory (A or B) completion of French I and II. Students who have had only this prerequisite are expected to continue the grammar and composition work in French III and IV. Time to be arranged. Both semesters, Two hours.

ITALIAN

Italian I and II. Elementary. This course offered for the first time this year, is designed especially for conservatory and other students to whom a knowledge of Italian would be of practical benefit. Prerequisite: At least one satisfactory year of modern foreign language. Covello and Giacobbe's First Book in Italian, Wilkins and Marinoni's L'Italia, Dante's Inferno. Both semesters at 7:45, M. W. F. Three hours.

SPANISH

It is possible for students to carry Spanish thruout the four years of their college course and to major in this language.

As far as possible Spanish is made the language of the class room. A modified direct method is used. Close attention is given to pronunciation, sentence structure and training the ear of the student. The reading of Spanish periodicals forms a part of the required work.

The Spanish Club offers an opportunity for the presentation of short plays and interesting programs.

Spanish I and II. Elementary Course. Drill in pronunciation. Daily practice in reading and speaking Spanish. Grammar and reading texts vary from year to year.

Seniors taking this course will read not less than 200 pages in

addition to regular class requirement. Both semesters at 7:45 and 1:30, T. W. Th. F.

Spanish III and IV. Modern Prose. Short stories by Spanish and Spanish-American authors; composition and grammar review. Conversation and sight reading. Reports on collateral reading. Prerequisite: The equivalent of one year of college Spanish. Both semesters at 8:45, M. W. F. Three hours.

Spanish V and VI. Nineteenth and Twentieth Centuries Study of representative novels and dramas of the period. Much collateral reading. Prerequisite: Two years of college Spanish. Both semesters at 8:45, T. Th. Two hours (Alternates with Spanish IX and X.) (Not offered in 1929-1930.)

Courses

The work of the conservatory is divided into departments, graduation from any one of which requires, in addition to its own completion, a good English education; the completion of a year's work in one collegiate subject, this subject to be chosen from the modern language or the English groups; certain specified work in harmony, counterpoint or analytical harmony, theory and history, and the giving of junior and senior recitals, except in the teachers' course in which the student must do special work in the preparation for teaching.

It is expected that all students in the graduating year shall take for graduation, or in the senior year, not less than two 30 minute lessons a week, and it is advised that in the second semester students shall take three lessons a week, in order that their program may be artistically prepared. Likewise during the second semester of the junior year, two lessons each week are necessary for a finished performance.

CERTIFICATE

It has been decided to offer a certificate to any student who has completed the requirements of his junior year in any department, and has appeared successfully in a public recital during the junior year, giving his performance from memory. In addition to completing the required work in his department, he must complete the harmony and interpretation courses.

PIANO

This course is laid out on broad lines, consisting of a preparatory and a comprehensive collegiate course, the latter requiring four years for an average student to complete.

Appended is a specimen course formed on the study or etude system, along with which will be taught salon pieces and as many works of the masters as can be thoroly learned.

Modern teaching has shown that individuality must be cultivated. This desired end may be best attained by students who do not accomplish rapid results by the etude system, by the use of course of

technique and pieces carefully selected to accomplish the principles involved in the studies.

The completion of the harmony, analytical harmony, counterpoint, history of music, biographical history, interpretation and analysis courses, and the giving of a junior and senior public recital are required for graduation in this course.

Preparatory

Table and piano work for finger and wrist development with special attention to the development of finger legato touch, major scales, chord and arpeggios. Studies by Kohler, Duvernoy and Loeschorn.

Intermediate Collegiate

Daily drill in hand extension exercises, in trills, scales, in octaves, thirds, sixths and trills, in major, harmonic and melodic minor, chords, broken chord forms, arpeggios, and octave work in all keys are required of all students.

Technical work selected from Faelton's Preparatory Exercises, Kleine, Pischna, Mason and Jonas.

Studies and etudes selected from Bertini, Heller, (Phrasing), Krause, (Trill), Bernes, (Velocity), Bach (Little Preludes and Fugues), Two and Three Part Inventions, Scerny and Cramer.

Advanced Collegiate

Technical work selected from Pischna, Tausig, Joseffy and Jonas.

Studies and etudes selected from Clementi (Gradus and Parnassum), Kessler, Moscheles, Bach (Well Tempered Clavichord), Chopin (Etudes).

Salon pieces, selections from the best modern writers and the classics thruout the entire course.

Students must have studied thoroly and be able to render in a creditable manner the following compositions before entering the graduation year: One Mozart Sonata, three Beethoven Sonatas, and Preludes and Fugues from Bach's Well Tempered Clavichord or their equivalent the following list by Chopin: Two Mazurkas, two Waltzes, one Nocturne, one Polonaise, three Etudes, two Compositions by Schubert, two by Schumann.

VOICE CULTURE

In this department advantages are offered which lead to the highest attainment in this line of art.

Voice Placing

Especial attention is given to the proper placing of the voice. This is considered of the utmost importance, as neglect of it almost invariably results in a permanent injury to the voice and often to the health.

To accomplish this the student is instructed in a proper control of the breath, a perfect union of the registers, a free and easy emission of the tone, and a knowledge of the different timbres of the voice.

By these means the voice is produced with equal beauty and brilliancy thruout the entire compass.

This course is divided into preparatory, intermediate collegiate, and advanced collegiate, taking approximately the same length of time as the course in piano.

The definite length of this course must largely be determined by the readiness of the individual voice to respond to training.

The completion of the harmony, analytical harmony, counterpoint, history of music, biographical history, interpretation and analysis courses and the giving of junior and senior recitals are required for graduation. The student is expected to take three years of piano, or be able to play a fair accompaniment.

Preparatory

A thoro knowledge of the principles of breathing and breath control is imparted; exercises in breathing and tone placing; in agility and relaxation of muscles (pure tone cannot be produced with rigid muscles), a thoro knowledge of the resonanting cavities; Fred Sieber's eight measure studies and ten studies of Op. 44-49. Simple songs, carefully selected to assist the student in conquering his difficulties, will be used.

Intermediate Collegiate

Exercises in agility, uniting of the tones, swell, mezza voce embellishment; Books I and II of Masterpieces of Vocalization which are a graded series of vocal studies selected from the celebrated works of all the great masters of singing.

Advanced Collegiate

Advanced exercises in agility, covering all kinds of scales and chords in both major and minor, mezza voce, trill, also exercises for strengthening the voice; Books III and IV of Masterpieces of Vocalization.

Thruout the entire course a careful selection of songs from the best American, English, German, French and Italian writers will be used, also arias from the operas and standard oratorios. While songs in the foreign tongue will be taught in the vernacular, the greatest pains will be taken to give the student a clear and intelligent enunciation of the English language and the advice will be to sing in our native tongue whenever practicable. A rich and full repertoire of songs and arias will be required before graduation.

It is advised that voice students elect both French and Italian languages.

PIPE ORGAN

Our Memorial Organ, the gift of Mrs. Delia Davidson Worley and Mrs. Nellie Davidson Doerr, in memory of their mother, places us in a position to offer advantages in the line of organ study that few schools, even in the largest art centers can surpass. The mechanical part of the organ is as complete as the very largest organs, giving students experience in registration. The tone is beautiful and refined and the action leaves nothing to be desired.

In order to enter upon the study of the organ it will be necessary to have completed the preparatory and the first year of the collegiate course in piano, and it is advisable to keep up the study of piano along with the organ study thruout the first two years' work.

The course will be three years in length. The completion of the harmony, counterpoint, history of music, biographical history, interpretation and analysis courses and the giving of junior and senior recitals will be required for graduation.

Organ Course

Modern School of Organ, by Charles E. Clemens, supplemented by work in Schneider's Trios, Rheinberger's Trios, Busk Rinck; Nilson's Pedal Technique embodying the principles of pedal obligato playing; manual work and registration.

Playing of church tunes and anthems, selections from the best writers for this instrument, including the English and French schools; Sonatas by Mendelssohn, Merkel, Rheinberger, and the works of Bach. Special care is taken in training competent church organists.

VIOLIN COURSE

The Sevcik semi-tone system, which develops correct intonations,

is used. Sevcik technical studies, scales and special bowing studies are used throughout the course, developing equally the right and left hand.

Etudes by Wohlfarht, Dont, Kayser, and Mazas. Concertos by Sett, Rieding and Seitz. Duets by Mazas, Pleyel and Olbauer.

COLLEGIATE

Etudes by Kreutzer, Fiorillo, Dont, Oavinis.

Concertos by Accolay, Viotti, Nardini, Rode, Mozart and Spohr.

Sonatas by Tartini and Handel.

Selections from the best composers are used thruout the course, with a view to applying the principles of bowing, tone production and expression.

Practice in ensemble work is also offered to the student.

Same requirements for theory of music as those in the piano course.

SOLFEGGIO AND KEYBOARD HARMONY

Solfeggio, or the training of the mind thru the ear, enables a student to recognize intervals from their sound, and develops and quickens the capacity of the student for intelligent listening. It consists of training in the notation of musical phrases from dictation.

HARMONY

A thoro knowledge of keys, scales, signatures, intervals, triads, chords of all kinds, including altered and augmented, suspensions, passing chords, melodic changes, and organ point will be required. The harmonizing of melodie and chorals. The playing of modulations of many kinds in all keys.

Such a course when augmented by a thoro training in Keyboard and Aural Harmony, is of the utmost value as a preparation for the more exhaustive study of Harmony. Keyboard harmony consists of a thoro knowledge of scales, cadences and simple modulations thru all the keys. In other words,—the rudiments of Harmony mastered at the keyboard. This course is primarily arranged for students in the intermediate grades.

COUNTERPOINT

The two part, three part and four part counterpoint, imitation,

the writing of simple inventions in time and three voices. Analysis of Bach Inventions and Fugues.

ANALYTICAL HARMONY

Principles of Analysis; Reduction of florid passages; a thoro dissection of Harmonic form. Analysis of Mozart and Beethoven Sonatas. Mendelssohn's Song Without Words and Chopin Preludes.

HISTORY

The general history of music showing its growth and development.

Early Christian music, polyphonic music, monophonic music, the rise of instrumental music in the classic form, the opera, the oratorio, Romantic music.

The history course comprises one year's work, one lesson a week. It is divided into 20 weeks of general history study, supplemented by a card sytem and lectures covering the entire field of musical history. The last 15 weeks are devoted to biographical history, which is taught by means of an exhaustive study of the lives, methods and styles of writing, and general characteristics of twelve of the greatest writers of music. Illustrated by Victrola records of great artists and orchestras.

INTERPRETATION AND ANALYSIS

These subjects comprise a course of one lesson a week throuout the entire year. They are given in the form of lectures which explain all points of interpretation, analysis, the different forms of music, the orchestra and chamber music.

PUBLIC SCHOOL MUSIC

This course covers the teaching method for the entire eight grades and high school of the public schools and also the teaching of appreciation of music and sight singing in class. The work comprises two years work of two lessons a week. In addition two years each of voice and piano are required, besides the following:

College English	8 hrs.
Education (See Department of Education)	15 hrs.
Harmony	8 hrs.
Interpretation	2 hrs.
History of Music	2 hrs.

This course meets all state requirements.

BACHELOR OF MUSIC

This course consists of fifty-six college hours, twenty-four theoretical music hours, and forty-four hours of practical music.

The theoretical music offered:

Analytical Harmony, 1 semester, 2 hours per week required.
Harmony, 4 semesters, 2 hours per week 8

Biographical Musical History, 1 semester, 1 hour per week 1
Advanced Musical History, 2 semesters, 1 hour per week..... 2

POST GRADUATE COURSES

Work is offered in all departments to graduates or advanced students which will be devoted chiefly to repertoire. This course is becoming very popular as shown by the number of our graduates returning for advanced work.

MONMOUTH COLLEGE GLEE CLUBS

Glee Clubs for both men and women have been in existence for a number of years. These are of a high class using good music and giving programs of real merit. The training is of the best and gives an opportunity for artistic choral study.

MUSIC ELECTIVES

College credit will be given for the following courses in musical theory when elected under the same conditions as courses in other departments, provided the election is approved in advance by the Director of the Conservatory of Music and the student's adviser. No credit will be given however for work not continued for at least one full year, and the total amount of credit received in music by any student shall not exceed 24 hours. Students must register for this work on the College Registration Card.

Music I. Elementary and Keyboard Harmony. Prerequisite to all other courses in Harmony. First semester, two recitations per week.

Music II. Harmony. Prerequisite: Music I. Second semester, two recitations per week. Two hours.

In the event of the class in harmony numbering but a few students, Music I and Music II may be at the discretion of the instructor.

Music III. Harmony. Prerequisite: Music II. First semester, two recitations per week. Two hours.

Music IV. Harmony. Prerequisite: Music III. Second semester, two recitations per week. Two hours.

Music V. Harmony. Prerequisite: Music IV. First semester, two recitations per week. No credit.

Music VI. Counterpoint. Prerequisite: Music V. Second semester, two recitations per week. Two hours.

Music XIII. Principles of Teaching Public School Music (Methods). Covering fifth and sixth grades. First semester.

Music XIV. Principles of Teaching Public School Music (Methods) Covering junior and senior high school and an outlook on different systems. Second semester.

The completion of Music XI, XII, XIII and XIV will give two semester hours credit in Education.

In addition to the credits in theoretical music specified above ten credits or semester hours in practical music may be allowed to count as electives toward the A. B. or B. S. degree on the following conditions:

1. These credits must be in advanced work and under teachers offering graduating courses. Nothing below the sophomore year in music can be counted and nothing which has not been preceded by at least a year of harmony and a year of interpretation and analysis.

2. Six of these credits, provided all other conditions have been met, will be given after the student's junior recital and the remaining four after a senior graduating recital.

GENERAL INFORMATION

In order to secure a diploma the student must have finished the prescribed work, and must have spent at least one year in this institution.

The privilege of the musical department are not extended on the same grounds to holders of scholarships as are the privileges of other departments of the college.

Students attending college and desiring to take musical instruction are expected to take lessons in this department. No credit will be given for lessons taken elsewhere.

Students should report to the president of the college, with whom they will make their arrangements for entrance.

About one hundred volumes of the best musical literature, including histories, biographies, etc., are in the Warren County Library. The reading room is free to all students. The College Library also contains a valuable collection of books on musical subjects.
